For the Monitoring Program, an inter-agency technical review committee evaluates proposals, and, for those selected for further consideration, subsequently the full investigation plans. The committee develops a draft monitoring program from the highest priority projects, based on their technical review and available funds. The draft monitoring plan is reviewed by ten regional subsistence councils and the public. An inter-agency staff committee reviews all recommendations, and provides recommendations. The Federal Subsistence Board selects projects for the Monitoring Plan taking into account all recommendations and comments. Funding of the Monitoring Plan is administered by the Office of Subsistence Management (OSM). For the Partners Program, an internal review is conducted to evaluate proposals and make recommendations for funding. The evaluations are based on the criteria outlined in the request for federal assistance. The proposals are ranked and the OSM Assistant Regional Director selects proposals that best support the program within available funding. Once a Monitoring Program project or Partners Program position is selected for funding, a funding instrument, i.e., notice of award, between Fish and Wildlife Service and the recipient is drafted by the OSM. The award is processed by OSM through the contracting office and sent to the recipient for signature. The award is considered executed when the signed copies of the agreement are received from the recipient and the contracting office has obligated funds to the agreement. The awards are administered by OSM.

Telephone: (907)786-3691 Email: michelle_stpeters@fws.gov.
CRITERIA FOR SELECTING PROPOSALS:

For the Monitoring Program, each proposal is evaluated using the following five criteria: (1) Strategic Priorities: Studies must be responsive to identified issues and information needs, and that have a direct association to a Federal Subsistence fishery. (2) Technical and Scientific Merit: Technical quality of the study design must meet accepted standards for information and collection, compilation, analysis, and reporting. Studies must have clear objectives, appropriate sampling design, correct analytical procedures, and specified progress and final reports; (3) Investigators Ability and Resources: Investigators and their organizations should have demonstrated technical and administrative expertise to complete prior studies, or have co-investigators or appropriate partnerships with other organizations to meet all requirements of the study; (4) Partnership-Capacity Building: Studies must include appropriate partners and contribute to building capacities of rural organizations, local communities, and residents to participate in fisheries resource management. Investigators and their organizations should be able to demonstrate the ability to maintain effective local relationships and a commitment to capacity building and; cost benefits. (5) Applicants cost/price proposal will be evaluated for reasonableness. For a price to be reasonable, it must represent a price to the government that a prudent person would pay when consideration is given to prices in the market. Normally, price reasonableness is established through adequate price comparison, but may also be determined through cost and price analysis techniques.

For the Partners Program, each proposal is evaluated using the following equally weighted criteria: (1) Each project must have direct linkage to Monitoring Program projects; (2) Ability to successfully implement program identified under section IV, ii, Content and Form of Application, Describe the Program; (3) Strategic priority and past performance of the Monitoring Program projects identified in the proposal; (4) Letters of support from tribal and rural organizations, government agencies, project investigators, and schools/ universities; (5) Annual and total cost of the proposal, including use of in-kind or matching contributions that either decrease cost or expand support for implementing the Partners Program; (6) Past performance on implementing Monitoring Program projects; (7) Past performance on current or past agreements with the Office of Subsistence Management; (7) Previous experience in mentoring, training, and supervising personnel; and (8) Past and current accounting practices to ensure deliverables and accountability.

Each of these items carries a “Go/No-Go” impact: direct linkage of a Monitoring Program project, enrollment in CCR; affirming in writing in your application that you have enrolled in CCR; providing your DUNS Number; submission of completed SF-424, SF-424A, and SF-424B package; and submission of approved Indirect Cost Negotiation Agreement if requesting reimbursement for indirect costs.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2016: Project 16-302 Salmon River of the Pitka Fork Weir. Funds under the award are utilized to continue Salmon River Tributary of the Pitka Fork in the Kuskokwim River basin to index Chinook salmon (Oncorhynchus tshawytscha) escapement into the headwaters of the Kuskokwim River, upstream from McGrath. Fiscal Year 2017: Project 16-351 Middle Kuskokwim River In-season Subsistence Salmon Harvest Monitoring and Estimation. Funds under this award are to be used to provide an index of relative abundance of salmon in a stretch of the middle Kuskokwim River, and further, investigate the feasibility of estimating the in-season Chinook Salmon harvest. Fiscal Year 2018: Program has not yet selected projects for funding. Program anticipates funding projects that address identified issues and information needs, and that have a direct association to a Federal Subsistence fishery.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2016: Blackfeet Tribe ($200,000) - Keeping Aquatic Invasive Species out of Blackfeet Waters:
The Blackfeet Tribe in northern Montana remains free of the most noxious Aquatic Invasive Species (AIS) that plague the majority of the continental U.S. Once introduced, aquatic invasive species alter the food web and habitat for native species of concern like bull trout, and have severe economic impacts to domestic water supplies, irrigated agriculture and tourism. The Tribe has launched a pilot AIS prevention program and developed the Blackfeet Aquatic Invasive Species Prevention Strategy. The TWG funds will be used to protect over 25 lakes and 175 miles of streams from the threats of aquatic invasive species through activities that include inspected boat launching, water vessel decontamination, outreach about the AIS and additional activities to raise awareness of AIS threats.

Telida Village Council ($200,000) - Monitoring Moose for Metals in the Upper Kuskokwim River Region: Telida Village Council is working with the U.S. Fish and Wildlife Service to begin monitoring Upper Kuskokwim River Region moose, the main food source, for metals to determine the extent of bioaccumulation of elements in the area moose. TVC has conducted three years of water quality testing in the Upper Kuskokwim River and are concerned about the elevated levels of metals such as arsenic, cadmium, and mercury in the water supply. It is important to see if the moose, a semiaquatic forager, which is consumed by most people in the region, is healthy enough to be eaten. TVC will work with the Alaska Department of Environmental Health and the Agency for Toxic Substances and Disease Registry to compare the monitoring results for metals against applicable state and federal food safety consumption standards. Afterwards, TVC will share the Report of Findings with the Alaska Department of Fish and Game and working together examine how the metals are possibly contributing to the low moose population dynamics.

EXAMPLES OF FUNDED PROJECTS:
Bobolink, (2) wetland management for Midwest marsh birds, (3) strengthening a network for monitoring landbird migration, (4) using geolocators to determine connectivity of the Midwest Migration Network, (5) build technical capacity for strategic conservation of grassland birds, and (4) resolve migratory connectivity and full life cycle management issues for Common, Black, and Caspian terns, Bobolink, and Wood Thrush. CRITERIA FOR SELECTING PROPOSALS:
Proposals will be reviewed to determine how well they address the migratory bird program priorities outlined above and in a Notice of Funding Opportunity published annually on the Grants.gov website for CFDA # 15.647. All applications received will be reviewed by a team of four USFWS wildlife biologists (GS-11 grade level or higher). (Any conflict of interest identified will require that a reviewer remove themselves from the evaluation process.) Each of the reviewers will independently score each proposal on a scale of 1-10 for each of the following criteria: (1) relevance to the stated description of funding opportunity, (2) relevance to the Midwest Region’s Migratory Bird priorities (e.g., focal species); (3) overall scientific merit of the proposal; (4) clarity of proposal and especially its stated objectives; (5) appropriate methodology and timeline needed to achieve objectives; (6) demonstrated history of successful completion of similar projects by applicants; (7) budget within the range of available program funds. Scores will then be summed across all criteria for all reviewers; project proposals will then be ranked and grants will be awarded in priority order subject to available funding unless all reviewers agree that a particular proposal scored so low that the risk of failure or likelihood of inappropriate product is too great to justify an award.

**PROGRAM ACCOMPLISHMENTS:**
Fiscal Year 2016: Enhanced/Restored 7,701 wetland/upland/coastal/marine acres, and 347 river/shoreline/riparian/trail miles. Managed/Protected 415.592 wetland/upland/coastal/marine acres. Made available for recreational opportunities 46,811 acres and 377 river/shoreline/riparian/trail miles. A total of 69 restoration projects were completed. Of these 69 projects, 18 provided benefits to the recovery of T&E species, 49 provided benefits to migratory birds, 15 provided benefits to interjurisdictional fishes, and 3 provided benefits to marine mammals (some projects benefited more than one trust resource category).

Fiscal Year 2017: In FY16, there were a few restoration projects that resulted in an unusually large number of acres managed/protected or made available for recreational opportunities. Therefore, we anticipate FY17 accomplishments to include approximately 4,000 acres and 100 miles of habitat enhanced or restored, 150,000 acres and 200 miles of habitat managed or protected, and 29,000 acres and 200 miles made available for recreational opportunities. We based this estimate on the 4 year average for each category. Fiscal Year 2018: In FY16, there were a few restoration projects that resulted in an unusually large number of acres managed/protected or made available for recreational opportunities. Therefore, we anticipate FY18 accomplishments to include approximately 4,000 acres and 100 miles of habitat enhanced or restored, 150,000 acres and 200 miles of habitat managed or protected, and 29,000 acres and 200 miles made available for recreational opportunities. We based this estimate on the 4 year average for each category.

**REGULATIONS, GUIDELINES, AND LITERATURE:**
Not Applicable.

**Fiscal Year 2017:** The Santa Clara River Trustee Council, comprised of the U.S. Fish and Wildlife Service and the California Department of Fish and Wildlife, has used funds for restoration projects targeted at improving migratory bird habitat along the Santa Clara River. One primary focus for these habitat restoration projects is to remove or control the spread of the invasive and non-native plant, the giant reed (Arundo donax). In FY16, the multi-year giant reed removal efforts continued by targeting two key habitat segments along the Santa Clara River, of approximately 200 acres each. Removal efforts included both mechanical and hand clearing techniques. These projects will improve habitat for the endangered least bell’s vireo (Vireo bellii pusillus), the endangered southwestern willow flycatcher (Empidonax traillii extimus), and the threatened yellow-billed cuckoo (Coccyzus americanus).

Jasper County, Missouri is part of the larger Tri-State Mining District where decades of mining activity has left legacy contamination. One primary focus of restoration projects in the Tri-State Mining District is to restore habitat and habitat quality for the benefit of migratory birds, which were injured from the legacy mining contamination. In FY16, approximately 87 acres of poor quality uplands, which were acquired from willing sellers, were restored by mowing, burning, and spraying exotic weeds, and then the area was seeded with native tallgrass prairie species. In addition to the upland restoration, approximately 2 miles of the riparian corridor along Bens Branch, a stream that flows through the restored area, have been restored by planting native shrubs and wildflowers. Finally, approximately 230 additional acres adjacent to the recently restored areas were acquired and protected with a conservation easement; they will be restored to higher quality habitat in the near future. All of these recent and future restoration activities will create more suitable habitat for migratory birds.

In FY16, an aquatic passage restoration project was completed using funding from a Natural Resource Damage Assessment and Restoration settlement with Enbridge as a result of their 2010 pipeline oil spill along and into the Kalamazoo River in Michigan. An old culvert system running under the E. Drive crossing of Pigeon Creek, a tributary of the Kalamazoo River, consisted of a stacked five-culvert system that inhibited the passage of aquatic organisms and did not adequately accommodate seasonal floods associated with storm events. The Calhoun County Conservation District replaced the previously inadequate road-crossing structure with a single bottomless culvert with a natural cobble substrate to facilitate fish passage and use by other aquatic organisms. To further improve fish passage, an in-stream rock ramp was incorporated to dissipate the force of water flowing through the culvert. Within a week of completion, fish were observed moving through the new culvert system. This restoration project provided direct benefits to 6.36 miles of stream, including 9.3 acres of benthic habitat, and provided fish passage through 80.7 miles of stream. Fiscal Year 2017: FY17 and FY18: We have not selected projects for funding. Project selection occurs on a local or regional basis and can occur throughout the FY. We anticipate funding projects to restore restoration projects and their habitats to compensate for injuries from hazardous substance releases and oil discharges. Fiscal Year 2018: We have not selected projects for funding. Project selection occurs on a local or regional basis and can occur throughout the FY. We anticipate funding projects to restore restoration projects and their habitats to compensate for injuries from hazardous substance releases and oil discharges.

**CRITERIA FOR SELECTING PROPOSALS:**
Specific criteria for individual proposals are set by the local and Regional office that is advertising the project opportunity. Criteria are based on the Natural Resource Damage Assessment and Restoration case-specific needs.

15.670 ADAPTIVE SCIENCE

FEDERAL AGENCY:
Fish and Wildlife, Department of the Interior

AUTHORIZATION:

OBJECTIVES:
The U.S. Fish and Wildlife Service (USFWS) uses a science-based, adaptive framework for setting and achieving broad-scale conservation objectives that strategically address the problems fish and wildlife will face in the future. This framework, called Strategic Habitat Conservation, is based on the principles of adaptive management and uses population and habitat data, ecological models, and focused monitoring and assessment efforts to develop and implement strategies that result in measurable fish and wildlife population outcomes. This process uses the best available scientific information to predict how fish and wildlife populations will respond to changes in the environment, thus enabling the USFWS to focus habitat conservation and other management activities where the will be most effective. In addition, the USFWS needs focused, applied science directed at high impact questions surrounding threats to fish and wildlife resources for which management and or mitigation is required to maintain species at healthy, sustainable, desired levels. USFWS must base its decisions on the best science available, in order to defend its regulatory decisions, biological opinions and species conservation recommendations to land managers.

15.672 WILDLIFE WITHOUT BORDERS AMPHIBIANS IN DECLINE

FEDERAL AGENCY:
Fish and Wildlife Service, Department of the Interior

AUTHORIZATION:

OBJECTIVES:

The goal of this grants program is to provide funding for specific conservation actions that have a high likelihood of creating durable benefits to amphibian species facing immediate threat of extinction, such as: Protection of at-risk populations; Veterinary/wildlife health interventions; Activities related to execution of species survival plans; Strengthening local capacity to conserve the target species; Actions addressing unsustainable exploitation; Efforts to mitigate or stop wildlife-human conflict; and Rehabilitation and rescue.

Proposed project work should occur within the species range, or, if work is to be conducted outside of the range, the proposal should show a clear relevance to its conservation.

TYPES OF ASSISTANCE:
Project Grants (Discretionary)

USES AND USE RESTRICTIONS:
The program will fund projects that conserve the world's rapidly declining amphibian species. Species eligible for funding are those frogs, toads, salamanders, newts, and caecilians that face a very high risk of extinction in the immediate future. Species should meet the criteria to be listed as Critically Endangered or Endangered on the International Union for the Conservation of Nature (IUCN) Red List. Species listed as Data Deficient on the IUCN Red List are also eligible if the applicant can provide information that suggests a similar urgency for conservation action. Species listed as Extinct in Wild are eligible if the applicant is proposing a reintroduction attempt. The following species are NOT eligible for funding: Species with natural habitat range located primarily within the United States, territories of the United States, Canada, and the high income economies of Europe; and Non-ampibian species.

Applied research projects should address specific management needs and actions. Funds provided under this program will not be used for: the purchase of firearms or ammunitions; buying of intelligence information or paying informants; gathering information by persons who conceal their true identity; law enforcement operations that prompt suspects to carry out illegal activities so they may be arrested (entrapment); or any activity that would circumvent sanctions, laws or regulations of either the U.S. or the country in which the activity would occur. Funds may not be used to provide material support or resources to individuals, entities, or organizations of countries that have been identified by the U.S. Department of State as state sponsors of terrorism. This program is administered in compliance with the Federal Grants and Cooperative Agreements Act of 1977, as amended. These funds may not be used towards training U.S. Federal Government personnel. Project work should occur in countries outside of the United States that have within their boundaries amphibian habitats and be conducted by any person or group with the demonstrated expertise required for the successful implementation of the proposed project. 1006.

Applicant Eligibility:

Applications may be submitted by any non-domestic (outside of the United States) government agency responsible for amphibian conservation and any other U.S.-based or non-domestic public or private organization or institution or individual with demonstrated experience in amphibian conservation.

Fiscal Year 2016: No new awards were issued in FY16. USFWS is no longer accepting proposals for this program. Fiscal Year 2017: N/A. Fiscal Year 2018: N/A.

CRITERIA FOR SELECTING PROPOSALS:
To be considered for funding, proposals must specify a conservation action for an eligible species. The Division of International Conservation ranks proposals by scoring how well each addresses the program priority areas and the requested proposal elements. High priority, well-justified and feasible projects that address all of the requested proposal elements will receive higher scores. These scores are not the sole determining factor for final funding decisions. Other review criteria include considering the degree to which a project: Demonstrates the high degree of threat or extinction risk that the target species experiences; Addresses a conservation need of a species that is exceptional ecologically, evolutionarily, or in conservation (Note that it is the responsibility of the applicant to articulate what quality makes the species exceptional, but examples would include a species that strongly influences the ecological community in which it occurs, a species that is genetically distinct with few close relatives, a species that exhibits a distinctly unusual behavior, or a species whose conservation would catalyze the conservation of multiple species); Occurs in a region or conserves a taxon poorly represented in the Amphibians in Decline portfolio; Makes a significant and durable contribution to the survival of the species, or to the integrity of its habitat or an area with significant conservation value for the species; Addresses a conservation need identified by a specialist group or by a regional, national or global strategy; Applies the best scientific and technical information and methods available in support of project activities; Includes the participation of local partners in project activities, including meaningful involvement of government, community or civil society stakeholders; Is feasible and likely to be successfully implemented as stated; Advances the practice of conservation by being designed and implemented in a way that the successes and failures of activities can be credibly assessed and shared; Emphasizes conservation action rather than data collection; and Implements activities or provides benefits that have the potential to be sustaining beyond the period of performance of the grant, including training that develops local capacity to implement or manage conservation projects.

The above considerations are not listed in any order of importance. All considerations listed do not necessarily apply to every proposal. Following review, applicants may be asked to revise the project scope and/or budget before a final funding decision can be made.
WILDLIFE WITHOUT BORDERS CRITICALLY ENDANGERED ANIMAL CONSERVATION FUND

FEDERAL AGENCY:
Fish and Wildlife Service, Department of the Interior

AUTHORIZATION:

OBJECTIVES:
The goal of this grants program is to reduce threats to highly endangered wildlife in their natural habitat. Proposals should identify specific conservation actions that have a high likelihood of creating durable benefits, such as: Protection of at-risk populations; Veterinary/wildlife health interventions; Activities related to execution of species survival plans; Strengthening local capacity to conserve the target species; Actions addressing unsustainable exploitation; Efforts to mitigate or stop wildlife-human conflict; and Rehabilitation and rescue.

Project activities that emphasize data collection and status assessment should describe a direct link to management action, and explain how lack of information has been a key limiting factor for management action in the past. Proposals that do not identify how actions will reduce threats, or do not demonstrate a strong link between data collection and management action, have a lower likelihood of being selected. Proposed project work should occur within the species range, or, if work is to be conducted outside of the range, the proposal should show a clear relevance to its conservation.

EXAMPLES OF FUNDED PROJECTS:
Fiscal Year 2016: No new awards were issued in FY16. USFWS is no longer accepting proposals for this program. Fiscal Year 2017: N/A. Fiscal Year 2018: N/A.

CRITERIA FOR SELECTING PROPOSALS:
To be considered for funding, proposals must specify a conservation action for an eligible species, listed above in the Description of Funding Opportunity. The Division of International Conservation ranks proposals by scoring how well each addresses the program priority areas and the requested elements listed in the Application and Format section above. High priority, well-justified and feasible projects that address all of the requested proposal elements will receive higher scores. These scores are not the sole determining factor for final funding decisions. Other review criteria include considering the degree to which a project:
- Demonstrates the qualification of the target species as experiencing a high degree of threat or extinction risk; Addresses a conservation need of a species that is exceptional ecologically, evolutionarily, or in conservation (Note that it is the responsibility of the applicant to articulate the exceptional quality of the species, but examples would include a species that strongly influences the ecological community in which it occurs, that is genetically distinct with few close relatives, that exhibits a distinctly unusual behavior, or whose conservation would catalyze the conservation of multiple species);
- Occurs in a region or conserves a taxon poorly represented in the CEACF portfolio;
- Makes a significant and durable contribution to the survival of the species, or to the integrity of its habitat or an area with significant conservation value for the species;
- Addresses a conservation need identified by a specialist group or by a regional, national or global strategy;
- Applies the best scientific and technical information and methods available in support of project activities;
- Includes the participation of local partners in project activities, including meaningful involvement of government, community or civil society stakeholders;
- Is feasible and likely to be successfully implemented as stated;
- Advances the practice of conservation by being designed and implemented in a way that the successes and failures of activities can be credibly assessed and shared;
- Emphasizes conservation action rather than data collection; and
- Implements activities or provides benefits that have the potential to be sustaining beyond the period of performance of the grant, including training that develops local capacity to implement or manage conservation projects.

These considerations are not listed in order of importance. All considerations listed do not necessarily apply to every proposal. The Division of International Conservation occasionally receives and funds proposals outside of the announced submission deadlines that are of such a critical nature (examples include projects resulting from a natural disaster, disease outbreak, other imminent threats or population crash, among others) that they warrant immediate consideration.

15.679 COMBATING WILDLIFE TRAFFICKING
FEDERAL AGENCY:
Fish and Wildlife Service, Department of the Interior

AUTHORIZATION:

OBJECTIVES:
On February 11, 2014, President Obama issued the National Strategy for Combating Wildlife Trafficking. Incorporating recommendations from the Advisory Council on Wildlife Trafficking, the Implementation Plan was released on February 11, 2015 to guide and direct the efforts of Federal agencies in executing the Strategy. The Presidents plan establishes three priorities:

1.) Strengthen Global Enforcement (both domestic and global),
2.) Reduce Demand for Illegally Traded Wildlife, and
3.) Expand International Cooperation and Commitment.

The plan establishes 24 implementation Plan Objectives for which the U.S. Fish and Wildlife Service (USFWS) is identified as a lead or participating agency.

Financial assistance will be provided for innovative projects that advance counter wildlife trafficking activities (wildlife defined to include terrestrial and aquatic species and timber) as outlined in the Next Steps of the National Strategy Implementation Plan.

Priority will be given to innovative projects that address one or more of the Implementation Plan Objectives and Next Steps detailed at: https://obamawhitehouse.archives.gov/the-press-office/2014/02/11/fact-sheet-national-strategy-combating-wildlife-trafficking-commercial-b.

TYPES OF ASSISTANCE:
Project Grants (Discretionary)

USES AND USE RESTRICTIONS:
Wildlife trafficking threatens a staggering array of terrestrial, freshwater, and marine species, including: elephants, rhinos, tigers, sharks, tuna, sea turtles, land tortoises, great apes, exotic birds, pangolins, sturgeon, coral, iguanas, chameleons, and tarantulas. Wildlife trafficking also includes trafficking of fisheries products and related threats to food supplies and food security. It is also well-established that wildlife trafficking is facilitated and exacerbated by illegal harvest of and trade in plants and trees, which destroys needed habitat and opens access to previously remote populations of highly endangered wildlife, such as tigers.

Projects submitted for funding under this program must address the above cited species, both terrestrial and marine, and take a multifaceted approach in dealing with the problem of illegal wildlife trafficking as outlined in the Implementation Plans Objectives. Funds provided under this program will not be used for: the purchase of firearms or ammunition; buying of Intelligence information or paying informants; gathering information by persons who conceal their true identity; law enforcement operations that prompt suspects to carry out illegal activities so they may be arrested (entrapment); or any activity that would circumvent sanctions, laws or regulations of either the U.S. or the country in which the activity would occur. Funds may not be used to provide material support or resources to individuals, entities, or organizations of countries that have been identified by the U.S. Department of State as state sponsors of terrorism. These funds may not be used towards training U.S. Federal Government personnel. Program will fund projects that link directly to the National Strategy for Combating Wildlife Trafficking: Implementation Plan. (https://www.whitehouse.gov/sites/default/files/docs/nationalstrategywildlifetrafficking.pdf). 100% of funding is discretionary.

Applicant Eligibility:
Applicants under this program can be: individuals; multi-national secretariats; foreign governments; US and foreign non-profits, non-governmental organizations, community and indigenous organizations; US and foreign public and private institutions of higher education; and U.S. and foreign for-profit organizations.

Applicants that submit proposals to other USFWSs International award programs are ineligible from submitting that same proposal to this program. If duplicate submissions are discovered those proposals will be disqualified.

Beneficiary Eligibility:
Non-domestic (outside of the United States) government agencies responsible for combating wildlife trafficking and any other U.S.- based or non-domestic public or private non-governmental organization or institution or individual with demonstrated experience in the activities proposed.

Credentials/Documentation:
Federal law (2 CFR Part 25, Universal Identifier and System for Award Management) mandates that all entities applying for Federal financial assistance, except individuals applying on their own behalf and not on behalf of any entity, must have a valid Dun & Bradstreet Data Universal Number System (DUNS) number and have a current registration in the System for Award Management (SAM).

Applicant entities or their key project personnel identified in the SAM.gov Exclusions database as ineligible, prohibited/restricted or excluded from receiving Federal contracts, certain subcontracts, and certain Federal assistance and benefits will not be considered for Federal funding, as applicable to the funding being requested under this Federal program.

U.S. non-profit, non-governmental organizations with 501(c)(3) Internal Revenue Status must provide a copy of their Section 501(c)(3) status determination letter received from the Internal Revenue Service. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:
Pre-applications must contain a completed, signed and dated Application for Federal Assistance form (SF-424); completed, signed and dated Assurances - Non-Construction form (SF-424b); budget table and budget justification; and a pre-proposal concept of up to four pages.

A. Pre-applications must:
D. E. (1) Clearly identify the primary Objective and/or Next Steps from the National Strategies Implementation Plan to be addressed by the project;
F. (2) Detail how the project will combat wildlife trafficking and any anticipated outputs and conservation outcomes; and
G. (3) Demonstrate that the applicant has a comprehensive understanding of the problem(s) to be addressed by their project.

H. I. Pre-applications should include the best available information on:
The wildlife species being trafficked
Routes and key transit points
Who is doing the harvesting, trafficking and/or consuming of illegal wildlife and wildlife products
How the proposed activities build upon or differ from past efforts.

J. K. Letters of support from government agencies and other partners and curriculum vitae of key personnel do not count toward the four page limit, and may be included as support for the applicants capacity to implement proposed activities effectively and an indication of past history of coordinating with partners.

Based on a review of pre-applications, selected applicants will and must be invited to submit a full application. Technical assistance is available by contacting USFWS program staff at CWT@fws.gov. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, “Intergovernmental Review of Federal Programs.” An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

CRITERIA FOR SELECTING PROPOSALS:

This opportunity is limited to projects that further the recovery of the Mexican Wolf, which may be described in the Mexican Wolf approved recovery plan, in the implementation schedule of the recovery plan, actions recommended in a completed 5-year status review of the Mexican wolf or Mexican Wolf management plan. All projects must have a direct association with the recovery of the Mexican wolf; (2) Technical and Scientific Merit: Technical quality of the proposal must meet accepted standards for information and collection, compilation, analysis, and reporting. Proposals must have clear objectives and specified progress and final reports; (3) Organizations should have demonstrated technical and administrative expertise to complete the proposed recovery activity; (4) Applicants cost/price proposal will be evaluated for reasonableness. For a price to be reasonable, it must represent a price to the government that a prudent person would pay when consideration is given to prices in the market. Normally, price reasonableness is established through adequate price completion, but may also be determined through cost and price analysis techniques.

Each of these items carries a "Go/No-Go" impact: direct linkage of a Monitoring Program project, enrollment in SAM.gov; affirming in writing in your application that you have enrolled in SAM.gov; providing your DUNS Number; submission of completed SF-424, SF-424A, and SF-424B package; and submission of approved Indirect Cost Negotiation Agreement if requesting reimbursement for indirect costs.

The cost-sharing of a person or entity in cooperative agricultural on NWRs lands can vary depending on the needs and objectives of the particular NWRs land. For example, the Service may provide the cooperators with the right to perform agricultural practices on NWRs land and a percentage of any resulting crop yield, as well as the ability to use Service water, equipment, and/or refuge staff. In exchange, the cooperators may provide the Service with labor, equipment, and materials; a percentage of any resulting crop yield; and/or maintenance, rehabilitation, or reestablishment of specific habitat conditions on NWRs lands. This is a nonfinancial assistance program. No Federal funds are obligated or awarded to program participants. This is a nonfinancial assistance program; no Federal funds are obligated or awarded to program participants.

Applicants must be private individuals or small business entities.

Beneficiary Eligibility:

Selected cooperators who conduct cooperative agriculture on NWRs lands under this program, excluding coordination areas (which are areas managed by the Service in coordination with the States).

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:
Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, “Intergovernmental Review of Federal Programs.” An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

**Application Procedures:**

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The program will post an annual Notice of Participation Opportunity on Grants.gov. The annual notice will provide a link to the NWRS website where individual cooperative agricultural opportunities will be posted as they become available (https://www.fws.gov/refuges/). Individual cooperative agriculture opportunities will also be advertised through other national, regional, and local outreach channels as determined by the Service to be appropriate. The notice for each new opportunity will include a general description of the opportunity, the objective criteria the Service will use to evaluate applicants, the application due date, and application instructions.

Individual cooperative agriculture agreements are typically approved for a 3-5 year period. Once that period ends, the Service will determine if those same cooperative agriculture activities should continue. If the Service will continue those same cooperative agriculture activities, a new individual cooperative agriculture opportunity will be posted on the NWRS website and made available for eligible entities to apply.

In general and at a minimum, applicants must provide completed FWS Form 3-1383-C (https://www.fws.gov/forms/3-1383-C.pdf) to apply for a cooperative agricultural opportunity. The Service will accept applications at the local refuge or complex office listed in the Notice in compliance with the terms and conditions in the Notice.

**Award Procedure:**

The Service will score each application based on the objective criteria outlined in the NOFO, specific opportunity requirements, and factors that make a potential recipient uniquely qualified. The Service will select the applicant best suited to conduct cooperative agriculture on NWRS lands. The Service will notify all applicants individually within 90 days after the closing of the opportunity notice. Unsuccessful applicants will be notified in writing describing why they were unsuccessful and of their right to appeal any adverse decision in accordance with 50 CFR 25.45.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

- Appeals:
  - Yes, the decision regarding an award of a CAA may be appealed in compliance with 50 CFR 25.45.

- Renewals:
  - None. After the term of the CAA has ended, the Service will review the cooperative agricultural opportunity. If we plan to continue it, we will publish a notice and award the CAA again following a competitive review and selection process. Previous cooperators are eligible to participate but must apply to be considered.

- Formula and Matching Requirements:
  - Statutory formulas are not applicable to this program.
  - Matching requirements are not applicable to this program.
  - MOE requirements are not applicable to this program.

EXAMPLES OF FUNDED PROJECTS:
Fiscal Year 2016: During the project period, several state geological surveys proposed to scan and make digitally available historic photographs obtained during geological field work, including mineral, oil and gas resource, and geologic hazard investigations. The photographs capture outcrops, geological landscapes and structures, rock formations, pastoral scenes, and mine sites many of which have been modified by vegetation overgrowth, urbanization, and landscape processes. These photographs provide historic information that may otherwise be unavailable for a variety of purposes, such as geologic investigations, planning and development, environmental compliance, hazard mitigation, and cultural and archaeological research.

Several state geological surveys proposed to catalog, digitize, and provide access to exploration and mining-related documents and ancillary artifacts, including geochemical data, reports, field notebooks, physical samples, and maps. These readily-available mining materials and associated data provide insightful information for research, educational, and historical pursuits; save users millions of dollars in re-collection costs; and help generate new exploration projects, which benefit the economy and resource development.

The historic mining collections are used by a variety of users, including geologists, miners, academics, governmental agencies, archeologists, historians, environmental consultants, legal community, and general public for a variety of purposes. Historic mining information helps to identify hazards and informs mitigation strategies for abandoned mine sites. U.S. Department of Interior, Office of Surface Mining Reclamation and Enforcement and state reclamation agencies frequently use historic mining information to investigate the location, depth, and extent of mines to plan land reclamation or re-development efforts. In Tennessee, historical field notebooks provided the only source of information for identifying unknown and abandoned underground mines, which have caused sinkholes in urbanized areas. Missouri's efforts to preserve geologists field notebooks have yielded information for identifying areas contaminated with heavy metals resulting from mining activities.

Many states planned to preserve, photograph, and create metadata for rock core and cuttings collections obtained during oil and gas exploration and development. The photographs and associated information will be posted on the Internet to enhance access and use of these collections. Users will be able to view photographed characteristics of the specimens without having to travel to the core facilities to physically view samples. The readily available information will provide the opportunity for researchers to learn about the existence of the samples, inform studies of the subsurface, and may direct further exploration activities, as well as determining locations of future drilling operations for resource development.

The preserved data, collections, and artifacts are described in the National Digital Catalog (https://www.sciencebase.gov/catalog/item/4f4e476fe4b07f02db47dbb4) and information about the Program is available at datapreservation.usgs.gov. Fiscal Year 2017: Information not available, because successful projects have not yet been selected. Fiscal Year 2018: No current data available.

Relevance to announced priorities, technical evaluation factors, and prospect of attaining program objectives.

PROGRAM ACCOMPLISHMENTS:
Fiscal Year 2016: This program focuses on satellite remote sensing data and technologies in support of applied research, K-18 education, workforce development and technology transfer. Federal funds are leveraged to work together with other State organizations, Federal agencies and across States (StateViews). Continued educational and technical working groups to increase efficiencies. Continued work to develop remote sensing curricula that can be shared with and tailored to each participating educational institution (as well as workforce training). Select States worked to create a shareable archive of various remote sensing data that all State, local and non-governmental organizations can access.

Increased education and training in Earth Sciences (K-18). Conducted critical applied research real-time applications relevant to each State, sometimes expanding to and of benefit to regions of the U.S. Provided feedback to the U.S. Geological Survey to better understand State and local needs and user requirements. Additionally, the grant recipient continues to explore a distributed cloud-based network utilizing key educational institutions throughout the U.S. to aid in the more efficient distribution of large data sets such as Landsat. Fiscal Year 2017: Several FY16 activities will continue, along with a focus on regional and topical working groups to address various needs and issues at the regional, state and local levels. Work will continue on data access, educational efforts integrating remote sensing into more K-18 curricula and determining local communities remote sensing requirements to address timely issues such as water quantity and quality, hazard mitigation, and
resource management. Projects will continue in this final grant period estimated to be a 6-month period of performance. Fiscal Year 2018: Anticipate receiving 10 applications and issuing 1 award.

EXAMPLES OF FUNDED PROJECTS:
Fiscal Year 2016: As a continuation of the National Land Remote Sensing Education, Outreach and Research Activity, which was awarded as a 5-year activity (initial year plus 4 optional years), these Year-4 projects were funded that assure all users of remotely sensed data have equal, efficient access to the data and can establish the means to conduct research using these data. Additionally, this program has funded projects focusing on K-18 education and outreach, remote sensing course development for the public, and the tailoring of remotely sensed imagery for State and local scientific and public use. Fiscal Year 2017: FY17 is the final option year of the five-year grant which includes projects that provide users equal, efficient access to remotely sensed data, as well as high-impact activities focusing on K-18 education and outreach, remote sensing course development for the public, and research applications developed to meet customer needs at the State and regional level. Fiscal Year 2018: Program has not yet selected projects for funding. Program anticipates funding projects that will develop and establish a nationwide consortium to expand the use of remotely sensed data and the science of remote sensing through education, outreach and research applications development. Plans are for a multi-year grant activity subject to availability of funds.

EXAMPLES OF FUNDED PROJECTS:
Fiscal Year 2016: Various projects were initiated in FY 2016 across eight (8) DOI CSCs focusing on Climate Change initiatives such as: Effects of temperature and precipitation on the Colorado River Water Resources to study climate projections for the Southwest drought related to reductions in streamflow caused by decreases of winter precipitation resulting in forecasts of reduced streamflow of the Colorado River. Managing for Drought in the Red River Valley identified more severe flooding and more severe droughts in the Western Red River basin. The scientific results have provided models for the Chickasaw Nation to use in their drought contingency planning efforts related to the Red River Valley. Warmer waters impacting sport fishing in Wisconsin found that temperatures in the lakes and streams are changing habitat conditions
fish species. 15.914 NATIONAL REGISTER OF HISTORIC PLACES
(National Register)

FEDERAL AGENCY:
National Park Service, Department of the Interior

AUTHORIZATION:

OBJECTIVES:
To expand and maintain the National Register of Historic Places for planning, preservation, research, public education and tourism efforts; to make the information on districts, sites, buildings, structures and objects of historical, architectural, archeological, engineering and cultural significance more accessible to the public in order to increase and broaden the public's understanding of the information; foster a national preservation ethic; and to promote greater appreciation of America's heritage; to coordinate with Federal agencies, State and Tribal preservation offices, and the Advisory Council on Historic Preservation in the implementation of laws and policies pertaining to historic preservation; and to establish liaison with and give guidance to communities under Title I of the Housing and Community Development Act of 1974 (see 14:218).

**TYPES OF ASSISTANCE:**

**ADVISORY SERVICES AND COUNSELING**

**USES AND USE RESTRICTIONS:**

Professional advice is provided in determining whether a property qualifies for inclusion in the National Register according to the Criteria for Evaluation contained in 36 CFR Part 60. Listing does not affect the range of actions an owner may take, as long as Federal funding, licensing or assistance is not involved and no governmental unit receives any authority or control over the property, including its use and disposition. However, if a Federal project might have an effect on a property listed or eligible for listing, the agency involved must provide the Advisory Council on Historic Preservation a reasonable opportunity to comment pursuant to 36 CFR Part 800. Registered properties also become eligible to receive grants from the Historic Preservation grant-in-aid program of the Department of the Interior (see 15.904), when funding is available, to receive home improvement loans from the Department of Housing and Urban Development under Title I of the National Housing Act as amended on October 18, 1974, or to participate in the community grant program provided by the Housing and Community Development Act of 1974. Major Federal tax advantages can be received on certain rehabilitation expenditures for "certified historic structures" and for charitable contributions for conservation purposes of partial interests in historic properties.

**Applicant Eligibility:**

Eligible applicants are the States and territories as defined in the National Historic Preservation Act, operating under programs administered by State Historic Preservation Officers appointed by the Governors (listed in Appendix IV of the Catalog); or the Tribal Preservation Officers; Federal agencies required to nominate and consider historic properties within their jurisdiction or as a result of the National Environmental Policy Act of 1969 and Executive Order 11593, and the National Historic Preservation Act operating under programs administered by representatives (listed in Appendix IV of the Catalog) appointed by the heads of the agencies and, in States without approved State Historic Preservation Programs, persons and local governments. Applicants eligible for Federal Tax benefits include owners of individually listed properties and properties certified by the Secretary of Interior as being historic and in a district certified as historic.

**Beneficiary Eligibility:**

Public and private owners of historic properties listed in the National Register of Historic Places or of properties certified by the Secretary of Interior as being historic and in a district certified as historic.

**Credentials/Documentation:**

Nominations are submitted on standard nomination forms provided upon request to the State Historic Preservation Officers, Federal Preservation Officers, and Tribal Preservation Officers who must certify that each property was properly nominated. Procedures for National Register nominations are found in 36 CFR Part 60. Request for determinations of eligibility must be adequately documented as described in Appendix A of 36 CFR Part 63. Requests for certification of historic properties must be documented as described in Section 36 CFR Part 67 and requests for certification of State and local statutes and districts must be documented as described in Section 36 CFR Part 67. To participate in the program, each State must have an approved review board, an approved State staff, and an accepted State historic preservation plan. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

**Preapplication Coordination:**

For National Register nominations the signature of the State Historic Preservation Officer on the nomination form certifies that the State review board has reviewed the nomination and that all applicable procedures, including notification to the property owner at least once during the nomination process, have been followed. The signature of the Federal Preservation Officer for Federal property or the Tribal Preservation Officer on Tribal lands on the nomination form certifies that the property has been nominated in compliance with the National Historic Preservation Act. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Anyone may prepare a National Register nomination. After the property is approved by the State Historic Preservation Officer, Tribal Preservation Officer, or Federal Preservation Officer, the nomination form or letter of request for a determination of eligibility should be forwarded to the Keeper of the National Register, National Park Service, Department of the Interior, 1849 C Street, NW, Mail Stop 2280, Washington, DC 20240. Nominations submitted for review are announced in the Federal Register to provide a period of comment. Documentation for certification for Federal tax benefits of historic buildings and structures, State and local statutes and districts should be forwarded to the appropriate State Historic Preservation Officer, which sends it to the appropriate National Park Service Office.

**Award Procedure:**

The professional review staff of the National Register determines whether the properties meet the National Register criteria as contained in 36 CFR Part 60. Properties that meet the criteria are then officially listed in the National Register and become eligible for Federal tax benefits and Historic Preservation Fund grants when they are available.

**Deadlines:**

Not Applicable.

**Range of Approval/Disapproval Time:**

After nomination by State, 45 days at Federal level.

Repatriation Grants defray costs associated with the packaging, transportation, contamination removal, reburial, and/or storage of NAGPRA-related human remains and/or cultural items. They are non-competitive and awarded on a continuing basis throughout each fiscal year. A list of all NAGPRA grants by fiscal year can be found on the National NAGPRA Program website: www.nps.gov/nagpra/GRANTS/ALLAWARDS. Fiscal Year 2017: No information available. Fiscal Year 2018: No information available.

CRITERIA FOR SELECTING PROPOSALS:
Grant proposals will be evaluated according to four criteria: Criterion A - Are the objectives of the project consistent with the goals of Native American Graves Protection and Repatriation Act? (Projects that are inconsistent with NAGPRA's goals will not be considered for funding). Are the project objectives clearly described? Special consideration will be given to collaborative proposals, especially proposals that focus on sharing and disseminating information among multiple museums and/or Indian tribes, or outline a plan to work with specific Indian tribes and/or museums. Criterion B - Is the project designed to accomplish the project objectives efficiently? Are the activities clearly described in detail, with an explicitly stated link between the activities and the stated objectives? Are activities organized logically? Are project methods and techniques described clearly? Are the roles and responsibilities of all participants clearly defined? Applicants with previously funded NAGPRA grants will have to include a description of the progress achieved and describe how the new project fits with the previously funded one. Criterion C - Is the budget reasonable to accomplish project tasks and activities? Are budget items necessary to accomplish project activities? Is the budget justification sufficient to explain project costs in detail? Criterion D - Are project personnel qualified to accomplish project objectives? Are project personnel qualified for the activities and tasks assigned? Are unfilled positions and consultancies clearly described? HPF Hurricane Sandy Relief Grant Program

FEDERAL AGENCY:
National Park Service, Department of the Interior

AUTHORIZATION:
Disaster Relief Appropriations Act, 2013 (P.L. 113-2)
National Historic Preservation Act, as amended, 16 U.S.C. 470(e) and (h), Establishment of Historic Preservation Fund
National Historic Preservation Act, as amended, 16 U.S.C. 470(a)), Develop and implement a comprehensive preservation education and training program.

OBJECTIVES:
The purpose of this supplemental funding is to provide technical assistance and emergency repairs to historic and archeological resources impacted by Hurricane Sandy. Only hurricane-related damage is eligible for grant assistance. TYPES OF ASSISTANCE:

USES AND USE RESTRICTIONS:
Hurricane Sandy HPF relief grants must be used to preserve properties listed in or eligible for listing in the National Register of Historic Places; States may also use the funds for 1) hiring additional term, temporary, or contractor staff to enable the SHPOs to expeditiously conduct the reviews of all Federally funded or sponsored projects required by Section 106 of the National Historic Preservation Act; 2) providing technical assistance to local government officials and to all owners of properties listed in or considered eligible by the State Historic Preservation Officer for listing in the National Register of Historic Places; and 3) architectural/engineering plans and specifications, economic feasibility studies, survey and damage assessments, construction work to stabilize and repair historic and archeological properties, and survey of hurricane-damaged properties.

Applicant Eligibility:
Eligible applicants are State and Tribal Historic Preservation Offices located within areas receiving major disaster declarations from FEMA.

Beneficiary Eligibility:

Award Procedure:
Using the FEMA major disaster declarations as a starting point for determining the method of apportioning the $47.5 million, the NPS will divide the appropriation into two groups. Group 1 includes $38 million and will be apportioned to the four States containing counties that FEMA designated as eligible to receive both Individual and Public Assistance Connecticut, New Jersey, New York, and Rhode Island. The remaining funds will comprise Group 2, and will be awarded to the remaining eight States, the District of Columbia, and any Federally-recognized Indian Tribes located in those States, through an application process and based on need as described in proposals submitted by the States and Tribes to the NPS. In apportioning the $38 million from Group 1 that will be assigned to CT, NJ, NY, and RI, because State Historic Preservation Offices (SHPO) in those States have not yet completed damage assessments to historic properties, there is no single best method of determining need. Funds will be distributed using a formula that takes into account three evaluation factors, each having equal weight: 1) population of counties eligible for both IA and PA, 2) land area of counties eligible for both IA and PA, and 3) the number of properties listed in the National Register of Historic Places in counties eligible for both IA and PA.

15.808 U.S. Geological Survey _ Research and Data Collection

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2016: Projects were funded in one of three primary areas: 1) Projects to become a new data provider to the NGWMN, 2) Projects to support agency connections to the NGWMN Data Portal, and 3) Projects that enhance the NGWMN by adding agency data, maintain sites to ensure that data collected is of good quality, and to drill replacement or new NGWMN wells. Fiscal Year 2017: For FY17 proposals were received in all three areas above. Fiscal Year 2018: For FY18 the program anticipates funding the same kind of projects.

CRITERIA FOR SELECTING PROPOSALS:

Each objective applied for within a proposal will be reviewed according to three Criteria: Relevance, Technical Quality, and Budget. A score or 1 to 10 is given for each criterion. Persistent Data Service Proposals are only evaluated using the Budget criteria. Proposals will be reviewed and scored by the NGWMN Program Board. The Program Board is made up of Federal representatives, SOGW members, and State Data provider representatives.

AUTHORIZATION:

Public Law 111-11, Subtitle FSecure Water: Section 9058 Water Availability and Use Assessment Program.

OBJECTIVES:

To support State water resource agencies in developing water use and availability datasets that are integrated with each appropriate dataset developed or maintained by the USGS or that integrate any water use or water availability dataset of the State water resource agency into each appropriate dataset developed or maintained by the USGS. The Water Use Data and Research program will allow State Water Resource agencies to improve the collection and reporting frequency of water use categories, including the inclusion of categories that have been discontinued in the past due to limited resources. Data collection, and improvement efforts, as well as research conducted will complement priorities and investigations carried by Federal, State, and Local Governments, and by private industry in water availability assessments for human and ecological uses.

**EXAMPLES OF FUNDED PROJECTS:**
Fiscal Year 2016: Example 1: The project will survey water users in Soil and Water Conservation Districts to collect information on irrigated crop acreage, water sources, and irrigation practices. The data will be used as input for a soil water balance and crop demand model to estimate irrigation use per acre for major crop types. Example 2: The project will develop a new computer program/application that will collect, store, and deliver water-use data. The program will combine several existing systems, and include new quality-assurance checks on water-use data, providing public water supply customer group data, quantifying consumptive use, and reporting data by HUC-8 and county levels. In addition, water use forms will be updated and new water use reporting application will be phased in for all allocated water users.

MISSING ALZHEIMER'S DISEASE PATIENT ASSISTANCE PROGRAM
Alzheimer's Initiatives

FEDERAL AGENCY:
Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

This program provides funds for projects that aid in the protection and location of missing persons living with Alzheimer's disease and related dementias and other missing elderly individuals. Law enforcement agencies often expend resources searching for missing persons with Alzheimer's disease, and if not found quickly, they are at high risk of serious injury or even death. In addition, law enforcement officers may not be trained or equipped to handle the special needs of those with Alzheimer's, once they are found.

USES AND USE RESTRICTIONS:
Applications are solicited for projects, pursuant to Congressional appropriations, that may include one or more of the following: (1) Develop or enhance local and national outreach programs to increase awareness among law enforcement agencies and the public in addressing the needs of missing persons with Alzheimer's disease; (2) Develop and/or implement a process for aiding in the location of lost persons with Alzheimer's disease; and/or (3) Provide training and substantive informational material to law enforcement agencies through a national or regional initiative. **AUTHORIZATION:**

**OBJECTIVES:**
The Community-Based Violence Prevention (CBVP) Program helps states and localities support a coordinated and multidisciplinary approach to community youth gun and gang violence through prevention, intervention, suppression, and reentry in targeted communities. The CBVP Program is designed to support and enhance the coordination of existing community-based violence prevention and intervention programs and strategies approaches that are attempting to replicate models and strategies which have been proven to have a positive impact on the reduction of violence in target communities. Toward achievement of the ultimate goal of eliminating community violence, the Community-Based Violence Prevention Program the CBVP Program has three main goals including to change community norms regarding violence; to provide alternatives to violence when gangs and individuals in the community are making risky behavior decisions; and, to increase awareness of the perceived risks and costs of involvement in violence among high-risk young people. The CBVP Program supports effective use of focused deterrence (enforcement) strategies and public health and education approaches to stop violence. This Program will work with community-based organizations to develop and implement strategies to reduce and prevent violence, particularly shootings and killings. This will be accomplished by relying on supporting communities to establish and strengthen partnerships between law enforcement and outreach workers, clergy, and other community leaders and family members in efforts to deter young people from committing violence, particularly shootings and killings. To intervene in conflicts or potential conflicts and promote alternatives to violence. The Community-Based Violence Prevention Program will also involve law enforcement in its efforts and depends heavily on a strong public education campaign to instill in people the message that shootings and violence are not acceptable. Finally, the model CBVP Program also calls for the strengthening of communities so they have the capacity to exercise informal social controls and to respond to issues that affect them, including community violence. These activities are organized into five core components that address both the community and those individuals who are most at risk of involvement in a shooting or killing: community mobilization, outreach, faith leader involvement, police participation and public education.

TYPES OF ASSISTANCE:
PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:
The NICS Operations Center conducts NICS background checks by analyzing and evaluating criminal history records to determine whether the transfer of a firearm to an individual may violate State or Federal law. The FFLs will provide the required descriptive information requested on the Bureau of Alcohol, Tobacco, Firearms and Explosives Form 4473 and each background check is assigned a unique NICS Transaction Number. If a NICS background check results in no matching records, the transfer will be a proceed. If it is determined that prohibitive criteria exists, the NICS Examiner will advise the FFL to deny the firearm transaction. If potentially prohibitive criteria exists and more information is required in order to make the determination, the NICS Examiner will advise the FFL to delay the firearm transaction. When a transaction is delayed, the NICS Examiner begins extensive research on the potential prohibitor. The NICS Examiner will contact local, state, and federal law enforcement agencies and courts to resolve questions about an individual who appears to be prohibited from purchasing or possessing a firearm, as well as to request clarification regarding information in a prior record or disposition. When the research is complete, the NICS Examiner calls the FFL and gives a decision on the firearm transaction. Individuals who are denied the purchase of a firearm will be advised by the FFL of the process for appealing the denial decision if he/she believes it is incorrect. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

previously submitted proposal letter, budget, and budget narrative were key factors in determining eligibility for funding, they were submitted prior to the posting of a solicitation. Application materials submitted electronically through GMS in response to either the assistance or compensation solicitation become permanent parts of the award file. Thus, it will be necessary to resubmit the proposal letter, budget, and budget narrative documents as part of the application package. Applications will be accepted following an incident of terrorism or mass violence in accordance with the timetable set forth in the AEAP Guidelines. There are two factors that determine the application submission requirements for the AEAP: (1) the applicant status, i.e., government agency (Federal, State, or local), non-governmental organization, or victim service organization; and (2) the type of support requested, i.e., crisis response, consequence management, criminal justice, victim compensation, technical assistance (nonmonetary assistance). Application requirements are listed below. Application requirements for State crime victim compensation programs - Funding will be made available to State crime victim compensation programs in response to an incident of terrorism or intentional mass criminal violence within the United States in the form of a grant. Requests for funding from State crime victim compensation programs may be made at any time in the aftermath of an incident and should include: (1) Responses to the questions or issues raised in the AEAP Compensation Solicitation; (2) Proposal letter; (3) Budget; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms. Application requirements for all other recipients of funds - All other applicants seeking Antiterrorism Emergency Reserve support are required to submit: (1) Responses to the questions or issues raised in the AEAP Assistance Solicitation; (2) Proposal letter; (3) Budget; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms. While no direct funding is available, OVC may provide its own consultants to meet the training and technical assistance needs of applicants. Technical and training assistance may be requested by submitting a letter describing the nature of the problem; the type of expertise or assistance needed; the duration of assistance; and the projected outcomes of the technical assistance or training. See OVC guidelines published in the Federal Register (Vol. 67, No. 21, Thursday, January 31, 2002) for additional information on application requirements for the AEAP. ITVERP: Step 1: Identify the type of application you are applying for by marking the appropriate type at the top of the application form. In addition, a supplemental sheet must be filled out by applicants. Sections B, F and H should be answered by all applicants; section G should be answered by Itemized and Supplemental applicants only. Detailed instructions are included. Step 2: If you believe that you are an eligible victim of a "designated" international terrorism event, please use the following forms and information to prepare your application for reimbursement. Required Documentation: A victim is required to submit documentation that provides proof of identity, citizenship, employment, and damage/injury sustained during the international terrorism event. A victim's family member or representative is required to submit documentation of his/her relationship to the victim plus medical information or a death certificate as appropriate, in addition to the items named above. In all cases, receipts for expenses incurred in the recovery process will be required. If any of the required documents have been destroyed and are unavailable from any other source, you must provide and certify a list of destroyed documents and how each would apply to your ITVERP application.

Award Procedure:

AEAP: Upon receipt and internal review of a complete application, it is the intention of OVC to notify applicants of funding decision within 5 business days or as soon as practicable. The applicant may be notified by telephone, Internet or facsimile. ITVERP: After review of each application, the Director shall determine the eligibility of the victim or representative and the amount, if appropriate, in addition to the items named above. In all cases, receipts for expenses incurred in the recovery process will be required. If any of the required documents have been destroyed and are unavailable from any other source, you must provide and certify a list of destroyed documents and how each would apply to your ITVERP application.

The Program requires a cash match of 10 percent of total program costs; Federal funds may not exceed 90 percent of total program costs. (Each State and territory that receives money under the JABG program must establish an interest-bearing trust fund to deposit program funds.) Interest derived from the award does not have to be matched, but interest generated from the trust fund cannot be used to match the Federal award. Matching contributions need not be applied at the exact time or in proportion to the obligation of Federal funds. However, the full match amount must be obligated by the end of the 36 month project period. For discretionary grants, no match is required. MOE requirements are not applicable to this program.

42 U.S.C. 10602 (a); and an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:
The Office for Victims of Crime (OVC), Department of Justice, administers the Crime Victim Compensation formula grant program. These programs help pay for some of the expenses resulting from crimes involving violence or abuse.

TYPES OF ASSISTANCE:
FORMULA GRANTS
USES AND USE RESTRICTIONS:
Funds under this program shall be used by the States for awards of compensation benefits to crime victims, with the following exception: States may retain up to 5 percent of their total grant for administrative and training purposes. Formula grant funds to an eligible State crime victim compensation program is based on 60 percent of the amounts States expended during the fiscal year preceding the year of collections for the Crime Victims Fund, other than amounts awarded for property damage. If the sums available in the Fund for grants under this program are insufficient to provide grants of 60 percent as provided above, grants from the sums available will be made to each eligible crime victim compensation program so that all such programs receive the same percentage of the amounts awarded by such programs during the preceding fiscal year, other than amounts awarded for property damage. A crime victim compensation program is an eligible crime victim compensation program if (1) such program is operated by a State and offers compensation to victims and survivors of victims of criminal violence, including drunk driving and domestic violence for: (A) medical expenses attributable to a physical injury resulting from a compensable crime, including expenses for mental health counseling and care; (B) loss of wages attributable to a physical injury resulting from a compensable crime; and (C) funeral expenses attributable to a death resulting from a compensable crime; (2) such program promotes victim cooperation with the reasonable requests of law enforcement authorities; (3) such State, possession or territory certifies that grants received under this program will not be used to supplant funds otherwise available to provide crime victim compensation; (4) such program, as to compensable crimes occurring within the State, possession or territory, makes compensation awards to victims who are nonresidents of the State, possession or territory on the basis of the same criteria used to make awards to victims who are residents of the State, possession or territory; (5) such program provides compensation to victims of Federal crimes occurring within the State on the same basis that such program provides compensation to victims of State crimes; (6) such program does not, except pursuant to rules issued by the program to prevent unjust enrichment of the offender, deny compensation to any victim because of that victim's familial relationship to the offender, or because of the sharing of a residence by the victim and the offender; (7) such program does not provide compensation to any person who has been convicted of an offense under Federal law with respect to any time period during which the person is delinquent in paying a fine, other monetary penalty, or restitution imposed for the offense; and (8) such program provides such other information and assurances related to the purposes of this section as the Director may reasonably require. Any amount of crime victim compensation that the applicant receives through a crime victim compensation program under this section shall not be included in the income of the applicant until the total amount of assistance that the applicant receives.
from all such programs is sufficient to fully compensate the applicant for losses suffered as a result of the crime. Appeals: Contact the Office on Violence Against Women for further information.

Renewals: Applications are submitted on an annual basis.

Formula and Matching Requirements: Statutory Formula: Title 28, Part 90, Subpart B. Matching Requirements: Percent: 25%. Each eligible entity receives a base amount of $600,000. Remaining funds are divided in an amount that bears the same ratio to the amount of remaining funds as the population of the State bears to the population of all of the States that results from a distribution among the States on the basis of each State's population in relation to the population of all States (not including populations of Indian tribes). The Federal share of these grants may not exceed 75 percent of the total costs of the projects described in the applications. Projects to victim service providers for victim services or for tribes do not count towards the total costs of the projects for purposes of calculating match. States may satisfy this 25 percent match through in-kind services. All funds designated as match are restricted to the same uses as the Office on Violence Against Women funds and must be expended within the grant period. States and subgrantees may apply for a waiver of the match requirement based on an adequate demonstration of financial need. Match may not be required in subgrants to victim service providers or tribes. This program does not have MOE requirements.

Length and Time Phasing of Assistance: OVW will make awards for at least 2 years. See the following for information on how assistance is awarded/released: Periodic drawdowns should be based upon immediate disbursement/reimbursement needs and project progress.

Reports: Quarterly and final financial reports plus annual and end-of-grant program performance reports will be required, as stipulated in the program regulations and the effective edition of the DOJ Financial Grants Management Guide. No cash reports are required. In the progress reports, States must provide a statistical summary of persons served, detailing the nature of victimization and providing data on age, sex, relationship of victim to offender, geographic distribution, race, ethnicity, disability, and the number of persons served in any underserved population. The reports must also explain the activities carried out and provide an assessment of the effectiveness of those activities, including the number of persons served and the numbers of persons seeking services who could not be served. States are responsible for submitting State reports and ensuring that subgrantees submit annual progress reports as well. Quarterly Federal Financial Reports are required. Grantees must monitor grant and subgrant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved.

Audits: In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of $750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. For Federal awards that expend less than $750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records: Financial records, supporting documents, statistical records, and all other records pertinent to an award must be retained for a period of three years from the date of submission of the final expenditure report. If any litigation, claim or audit is started before the expiration of the three year period, the records must be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.

RELATED PROGRAMS:
The State Criminal Alien Assistance Program (SCAAP) is a payment program designed to provide federal assistance to states and localities that incur costs for incarcerating undocumented criminal aliens who are being held as a result of state and/or local convictions. The Bureau of Justice Assistance (BJA) administers this program in conjunction with the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services branches.

**Types of Assistance:**
Direct Payments for Specified Use

**Uses and Use Restrictions:**
The Department of Justice Reauthorization Act of 2005 (Public Law 109-162, Title XI) included the following requirement regarding the use of SCAAP funds: "Amounts appropriated pursuant to the authorization of appropriations in paragraph (5) that are distributed to a State or political subdivision of a State, including a municipality, may be used only for correctional purposes." All funds must be used for correctional purposes only. To be eligible for reporting, inmates must have been convicted of a felony or second misdemeanor for violations of state or local law, and housed in the applicant's state or local correctional facility for 4 or more consecutive days during the reporting period. Once a person meets these criteria, all pre-trial and post-conviction time served cannot be determined through positive identification or "match," but have valid inmate data, including the proper inmate identifiers, may either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of their inmate databases. Awards are announced after the ICE inmate verification process is done. Technical assistance is available to applicants for preparation of the on-line application process by calling the OJP Grants Management System Hotline at 1-888-549-9901.

**Award Procedure:**
The final payment process requires that all applications and all data be fully processed and verified before any payments are made. Inmate data will be verified by the ICE, who will attempt to match the inmate data records provided to records in its databases to obtain the maximum number of confirmed matches. These matches are expected to include three categories: 1) those positively identified (matched) as qualifying undocumented criminal aliens; 2) those unknowns and 3) those positively identified as non-criminal aliens. Applicants will be given credit for a percentage of inmates whose eligibility cannot be determined through positive identification or "match," but have valid foreign countries of birth. Payments will be based on the days of incarceration for the verified number of aliens incarcerated by each applicant. Payments are granted by the Director of the Bureau of Justice Assistance, Office of Justice Programs, Department of Justice. The payment must be accepted on-line and the acceptance will effect a simultaneous assurance of compliance with conditions. Acceptance of the payment on-line initiates the automatic electronic transfer of funds from OJP to the recipient.

**Deadlines:**
Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**
Contact BJA.

**Appeals:**
Not Applicable.

**Renewals:**
Applications may be submitted annually, subject to availability of funding.

the time permitted to spend the money awarded because SCAAP funds are considered no year funds. Beginning with FY 2007 SCAAP awards, SCAAP funds must be used for correctional purposes only. Jurisdictions receiving SCAAP awards will be asked to report the projected use of these funds at the time the award is accepted. See the following for information on how assistance is awarded/Released: SCAAP payments are calculated simultaneously, with applicants receiving a prorated payment based on the appropriation; costs submitted, and inmates as determined by DHS. All SCAAP payments are made electronically to the applicant's bank account of record identified during the application process. Please use the jurisdiction's EIN (tax identification) and vendor number when applying for SCAAP funds.

**16.607 BULLETPROOF VEST PARTNERSHIP PROGRAM (BVP)**

**FEDERAL AGENCY:**
Bureau of Justice Assistance, Department of Justice

**AUTHORIZATION:**

**OBJECTIVES:**
To protect the lives of law enforcement officers by helping State, local, and tribal law enforcement agencies provide officers with armored vests.

**TYPES OF ASSISTANCE:**
DIRECT PAYMENTS FOR A SPECIFIED USE

**USES AND USE RESTRICTIONS:**
The program pays up to 50 percent of the total cost of each vest order. Total cost includes the cost of the vests, vest carriers, attachments, inserts, and covers considered integral or essential for its proper care, use, and wearability.

**Applicant Eligibility:**
Only chief executives of jurisdictions (or their designees) may apply for funds.

**Beneficiary Eligibility:**
Only law enforcement officers may receive vests through this program. According to the Act, "law enforcement officer" means any officer, agent, or employee of a State, unit of local government, or an Indian tribe authorized by law or by a government agency to engage in or supervise the prevention, detection, or investigation of any violation of criminal law, or authorized by law to supervise sentenced criminal offenders. Eligible officers may be full-time, part-time, paid or volunteer.

**Beginning with FY 2011, in order to receive BVP funds, jurisdictions must certify, during the application process, that all law enforcement agencies benefiting from the BVP Program have a written "mandatory wear" policy in effect. FAQ: https://ojp.gov/bvpbasi/docs/FAQsBVPMandatoryWearPolicy.pdf**

The BVP Reauthorization Act of 2015 included a provision that states that BJA may give preferential consideration to BVP recipients that provide armor vests to law enforcement officers that are uniquely fitted for such officers, including vests uniquely fitted to individual female law enforcement officers. A certification section has been added to the 2017 application (in the BVP system) stating the jurisdictions and law enforcement agency are aware of and will comply with this requirement.

**Credentails/Documentation:**
Eligible jurisdictions must be general purpose units of local government, Federally-recognized Indian tribes, the 50 state governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The validity of the on-line registration process is verified through independent reviews which may include certification by the banking institutions serving the jurisdiction, the U.S. Census Bureau, and agencies within the U.S. Department of Justice. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:
This is an Internet-based program. The jurisdiction is required to complete and submit an on-line registration form, providing information about the jurisdiction's chief executive officer, program contact person, and electronic banking information. The registration process is handled through the program's web site http://ojp.gov/bvpbasi/home.html. Only those jurisdictions with approved registrations are permitted to make application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:
2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The jurisdiction submits the application to BJA via the Internet web site http://vests.ojp.gov. On-line instructions guide the jurisdiction through the application process. Law enforcement agencies or agencies with law enforcement functions which meet the Act's definition, will assist in completing the jurisdiction's on-line application by indicating the types, numbers, and costs of vests they intend to order. Only those jurisdictions that complete and submit applications will be eligible for matching funds from BJA.

Award Procedure:
Applications received by BJA are reviewed for completeness, accuracy, and compliance with all program requirements. Each application is then checked against the availability of funds to cover up to 50 percent of the application's total cost, in keeping with established criteria for program fund allocation. When all checks are complete and the application approved, the jurisdiction is notified through e-mail that the necessary funds have been obligated.

Deadlines:
Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:
A minimum of 15 working days may be required for complete registration validation, although jurisdictions and law enforcement agencies will have immediate access to certain program components during this validation process. A minimum of 60 working days may be required after the program closes for approval of the jurisdiction's application for funding. A minimum of 25 working days may be required for the electronic transfer of funds from the U.S. Treasury to the jurisdiction's bank account, once the request for funds has been received, reviewed, and approved by the Office of Justice Programs.

Appeals:
Not Applicable.

Renewals:
Not Applicable.

Formula and Matching Requirements:
This program has no statutory formula. Matching Requirements: Percent: 50%. The program requires that each applicant jurisdiction be responsible for providing at least 50 percent of the cost of each vest purchased. Tribal governments may use Federal funds to provide this match; all other jurisdictions must use nonfederal match funds. Nonfederal fund sources include State and/or local jurisdiction revenues, private or personal funds, and contributions from insurance or worker's compensation consortiums. Asset forfeiture funds may also be used to meet the jurisdiction's matching requirement. Beginning in FY 2002, changes (Bulletproof Vest Partnership Act of 2000; Public Law 106-517) gives preference to small jurisdictions (those populations below 100,000) guaranteeing them the full 50 percent match payment before payments are calculated and approved for larger jurisdictions. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:
Jurisdictions with approved applications must request the federal match no later than August 31st of the second federal fiscal year following the end of the federal fiscal year in which their application was approved. In other words, the jurisdiction has two years beyond the year of their application to request payments for vests contained in that application. Payments of the federal match will be made whenever the jurisdiction indicates that at least part of the approved vest order was received and invoiced. See the following for information on how assistance is awarded/released. Funds will be available approximately three to four months after the application deadline. Applicants will be notified, via email, when the award is made and the funds are available. Please see the main BVP web site for more details:
http://ojp.gov/bvpbasi/home.html

Reports:
No reports are required.

Audits:
In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of $750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than $750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Payments and transactions are subject to audits by the General Accounting Office, Department of Justice's Office of the Inspector General, state or local government auditors, and auditors from independent public accounting firms. Jurisdictions must follow their local procurement policies and procedures, including maintenance of reliable and accurate accounting systems, record keeping, and systems of internal control.

In accordance with the requirement set forth in 2 CFR 200, Subpart F, grantees must maintain all financial records, supporting documents, statistical records, and all other records pertinent to the award for at least 3 years following the close of the most recent audit.

Account Identification:

Renewals: Subject to annual appropriations.

Formula and Matching Requirements: Statutory Formula: Title I, Chapter Subchapter V, Part A, Subpart 42 USC 3756. Statutory Formula: Once each fiscal years overall JAG Program funding level is determined, BJA partners with the Bureau of Justice Statistics (BJS) to begin a four-step grant award calculation process which consists of:

1. Computing an initial JAG allocation for each state and territory, based on their share of violent crime and population (weighted equally).
2. Reviewing the initial JAG allocation amount to determine if the state or territory allocation is less than the minimum (de minimus) award amount defined in the JAG legislation (0.25 percent of the total). If this is the case, the state or territory is funded at the minimum level, and the funds required for this are deducted from the overall pool of JAG funds. Each of the remaining states receives the minimum award plus an additional amount based on their share of violent crime and population.
3. Dividing each states final award amount (except for the territories and District of Columbia) between state and local governments at a rate of 60 and 40 percent, respectively.

4. Determining local unit of government award allocations, which are based on their proportion of the states three-year violent crime average. If a local eligible award amount is less than $10,000, the funds are returned to the state to be awarded to these local units of government through the state agency. If the eligible award amount is $10,000 or more, then the local government is eligible to apply for a JAG award directly from BJA.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance: Awards of at least $25,000 or more begin October 1 of the FY and are four years in length. Awards that are less than $25,000 begin October 1 of the FY and are two years in length. Requests for up to two additional years to complete performance of the award will be granted automatically. Extensions beyond a four-year period for all JAG awards may be approved on a case-by-case basis at the discretion of BJA. See the following for information on how assistance is awarded/released: Reimbursement.

Progress reports are required in accordance with the Department of Justice Grants Financial Guide (www.ojp.usdoj.gov/financialguide/DOJ/index.htm). EXAMPLES OF FUNDED PROJECTS:
USES AND USE RESTRICTIONS:

Coverdell grant must use the grant for one or more of these six purposes:

1. To carry out all or a substantial part of a program intended to improve the quality and timeliness of forensic science or medical examiner services, including medicolegal death investigators, as needed to eliminate such a backlog.
2. To eliminate a backlog in the analysis of forensic science evidence, including, among other things, a backlog with respect to firearms examination, latent prints, impression evidence, toxicology, digital evidence, fire evidence, controlled substances, forensic pathology, questioned documents, and trace evidence.
3. To train, assist, and employ forensic laboratory personnel and medicolegal death investigators, as needed to eliminate such a backlog.
4. To address emerging forensic science issues (such as statistics, contextual bias, and uncertainty of measurement) and emerging forensic science technology (such as high throughput automation, statistical software, and new types of instrumentation).
5. To educate and train forensic pathologists.
6. To fund medicolegal death investigation systems to facilitate accreditation of medical examiner and coroner offices and certification of medicolegal death investigators.

Funds may be used for personnel, computerization, laboratory equipment, supplies, accreditation, education, training, certification, facilities (the Coverdell law limits the amount of funds that may be used for the costs of a new facility or facilities), and administrative expenses (not to exceed 10 percent of the total amount of a Coverdell grant). Expenses that are not permitted include expenses other than those listed above (including expenses for general law enforcement functions or non-forensic investigatory functions), costs for any new facility that exceed the limits described by the Coverdell law, recipient administrative expenses (direct or indirect) that exceed 10 percent of the total grant amount, and/or the use of funds for the purchase and/or lease of vehicles, such as crime scene vans. Coverdell competitive funds may be awarded to SAAs or dispersed directly to units of local government based on the merits of the respective applications. States and local governments that provide forensic science or medical-examiner services may apply for the competitive funding.

Applications for competitive funding are reviewed by an independent panel made up of subject-matter experts from the forensic science community. The panellists review and rate the applications individually based on specific evaluation criteria specified in the solicitation.

Applicant Eligibility:

Under the Coverdell program, SAAs may apply for both base (formula) and competitive funds. Units of local government may apply for competitive funds. Coverdell SAAs and units of local government may apply directly to NIJ for funding.

The Coverdell law (at 34 USC 10562) requires that, to request a grant, an applicant for Coverdell funds must submit:

1. A certification and description regarding a plan for forensic science laboratories. Each applicant must submit a certification that the State or unit of local government has developed a plan for forensic science laboratories under a program intended to improve the quality and timeliness of forensic science or medical examiner services in the State, including such services provided by the laboratories operated by the State and those operated by any other entity or unit of local government within the State. Applicants must also specifically describe the manner in which the grant will be used to carry out that plan.
2. A certification regarding use of generally accepted laboratory practices. Each applicant must submit a certification that any forensic laboratory system, medical examiners office, or coroners office in the State, including any laboratory operated by a unit of local government within the State, that will receive any portion of the grant amount (whether directly or through a subgrant) uses generally accepted laboratory practices and procedures established by accrediting organizations or appropriate certifying bodies.
3. A certification regarding forensic science laboratory accreditation. Each applicant must submit a certification that any forensic science laboratory system in the State, including any laboratory operated by a unit of local government within the State, that will receive any portion of the grant amount (whether directly or through a subgrant) either is accredited, or, is not so accredited, but will (or will be required in a legally binding and enforceable writing to) use a portion of the grant amount to prepare and apply for such accreditation not more than two (2) years after the date on which a grant is awarded under the FY 2017 Paul Coverdell Forensic Science Improvement Grants Program.
4. A certification and description regarding costs of new facilities. Each applicant must submit a certification that the amount of the grant used for the costs of any new facility constructed as part of a program to improve the quality and timeliness of forensic science or medical examiner services will not exceed certain limitations set forth in the Coverdell law at 34 USC 10562. (See information on permissible expenses in the next section of this solicitation.) Applicants must also specifically describe any new facility to be constructed as well as the estimated costs of the facility.
5. A certification regarding external investigations into allegations of serious negligence or misconduct. Each applicant must submit a certification that a government entity exists and an appropriate process is in place to conduct independent external investigations into allegations of serious negligence or misconduct substantially affecting the integrity of the forensic results committed by employees or contractors of any forensic laboratory system, medical examiner office, coroners office, law enforcement storage facility, or medical facility in the State that will receive a portion of the grant amount.

Beneficiary Eligibility:

Eligible applicants must be State or local (i.e., county and municipal) governments. The purpose of this solicitation is to request applications for grants from State and units of local government to improve the quality and timeliness of forensic science and medical examiner services and/or to eliminate backlogs in the analysis of forensic evidence, including firearms examination, latent prints, impression evidence, toxicology, digital evidence, fire evidence, controlled substances, forensic pathology, questioned documents, and trace evidence for criminal justice purposes in State and local forensic laboratories.

Credentia/Documentation:

The applicant must furnish the following along with the application for a grant:

- A certification regarding forensic science laboratory accreditation. Each applicant must submit a certification that any forensic science laboratory system in the State, including any laboratory operated by a unit of local government within the State, that will receive any portion of the grant amount either is accredited, or, is not so accredited, but will (or will be required in a legally binding and enforceable writing to) use a portion of the grant amount to prepare and apply for such accreditation not more than two (2) years after the date on which a grant is awarded under the FY 2017 Paul Coverdell Forensic Science Improvement Grants Program.

- A certification regarding use of generally accepted laboratory practices. Each applicant must submit a certification that any forensic laboratory system, medical examiners office, or coroners office in the State, including any laboratory operated by a unit of local government within the State, that will receive any portion of the grant amount (whether directly or through a subgrant) uses generally accepted laboratory practices and procedures established by accrediting organizations or appropriate certifying bodies.

- A certification regarding forensic science laboratory accreditation. Each applicant must submit a certification that any forensic science laboratory system in the State, including any laboratory operated by a unit of local government within the State, that will receive any portion of the grant amount (whether directly or through a subgrant) either is accredited, or, is not so accredited, but will (or will be required in a legally binding and enforceable writing to) use a portion of the grant amount to prepare and apply for such accreditation not more than two (2) years after the date on which a grant is awarded under the FY 2017 Paul Coverdell Forensic Science Improvement Grants Program.

- A certification regarding external investigations into allegations of serious negligence or misconduct. Each applicant must submit a certification that a government entity exists and an appropriate process is in place to conduct independent external investigations into allegations of serious negligence or misconduct substantially affecting the integrity of the forensic results committed by employees or contractors of any forensic laboratory system, medical examiner office, coroners office, law enforcement storage facility, or medical facility in the State that will receive a portion of the grant amount.
Preapplication Coordination:

Potential applicants are encouraged to request the program announcement for additional information about eligibility requirements and application and selection procedures.

Applicants must contact their SAA to determine if the program has been selected for review by the State. The date that the application was sent to the SAA, or the reason such submission is not required, must be included in the application.

A. Base Funds for States: Eighty-five percent of the funds available for Coverdell grants will be allocated among eligible States based on population (State base funds). To be eligible, a State must satisfy the specific application requirements outlined in this announcement and all other general requirements for NIJ and OJP grants. Applications for State base funding must be submitted by the Coverdell State Administering Agency listed on the Office of Justice Programs web site at: https://ojp.gov/saa/

B. Competitive Funds for States and Units of Local Government: Fifteen percent of the available funds will be allocated among States and units of local government through a competitive process. Units of local government that provide forensic science or medical examiner services (whether through a forensic science laboratory, medical examiner's office, or coroner's office) may apply directly to NIJ for competitive funds. Coverdell SAAs may apply for competitive funds for forensic sciences improvements above and beyond those it can accomplish with its base funds. State applications for competitive funding will only be accepted from Coverdell SAAs. Other State agencies or departments who wish to apply for competitive funds must coordinate with their respective SAA. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs.” An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. See the current fiscal years solicitation available at www.nij.gov.

Award Procedure:

NIJ reviews program funding applications to make sure that the information presented is reasonable, understandable, measurable, and achievable, as well as consistent with the solicitation. NIJ will also review applications to ensure statutory requirements have been met.

Peer reviewers will review requests for competitive funds submitted under the solicitation that meet basic minimum requirements. NIJ may use internal peer reviewers (DOJ employees), external peer reviewers, or a combination, to assess competitive requests under the program meeting basic minimum requirements on technical merit using the solicitations selection criteria. Peer reviewers ratings and any resulting recommendations are advisory only, although their views are considered carefully.

Absent explicit statutory authorization or written delegation of authority to the contrary, the Assistant Attorney General (AAG) will make all final award decisions. With respect to requests for competitive funds, the AAG may also give consideration to factors including, but not limited to, peer review ratings, underserved populations, geographic diversity, strategic priorities, past performance, and available funding when making awards.

Wrongful Conviction Review Program - The objective of the Wrongful Conviction Review Program is to provide high quality and efficient representation for defendants in post-conviction claims of innocence. Post-conviction innocence claims are likely to include complex challenges to the reliability or accuracy of evidence presented at trial that fall mainly into three categories: 1) eyewitness identification evidence; 2) confession evidence; and 3) forensic evidence. In some cases, post-conviction DNA testing alone can establish innocence, but the majority of cases will rely on other forms of evidence, and many will involve DNA testing together with additional sources of proof and/or expert testimony, which may be extremely costly.

FEDERAL AGENCY:

16.754 HAROLD ROGERS PRESCRIPTION DRUG MONITORING PROGRAM (PDMP)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

An act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

To enhance the capacity of regulatory and law enforcement agencies to collect and analyze controlled substance prescription data through a centralized database administered by an authorized state agency and federally recognized Indian tribal governments.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTION:

The Harold Rogers Prescription Drug Monitoring Program (PDMP) allows for states discretion as they plan, implement, or enhance a PDMP to accommodate local decision-making based on state laws and preferences, while encouraging the replication of promising practices.

In FY 2012, the program expanded to provide funding to federally recognized Indian tribal governments for the specific purpose of enabling tribal health care providers to provide data to and access data contained within state PDMPs. In FY 2013, the program expanded again to enable applications for data-driven, multidisciplinary approaches to reducing prescription drug abuse, encouraging greater utilization of the PDMPs and their data. In FY 2015 the program added a fourth funding category to promote practitioner and researcher partnerships and contribute to the larger body of knowledge on PDMP best practices.

Grant funds under this program can be used to:

- Build a state-level data collection and analysis system to enhance the capacity of regulatory and law enforcement agencies and public health officials for future prevention efforts.
- Enhance existing programs abilities to analyze and use collected data to identify drug abuse trends, identify and address sources of diversion, and increase the number of users of the PDMP.
- Promote the use of data from the PDMP and other sources to measure drug abuse trends, identify and address sources of diversion, and better inform decision making by prescribers and dispensers.
- Facilitate and participate in national evaluation efforts to assess efficiency and effectiveness of potential best practices.
- Encourage and implement the exchange of information under the PMIX Architecture among states to prevent cross-border diversion.
- Contribute to state level opioid abuse prevention plans and determine methodologies to encourage replication of strategies that are proven to be effective.
- Assess the efficiency and effectiveness of state-level programs to make improvements and encourage additional states to implement programs.

Enable collaborations with law enforcement, prosecutors, treatment professionals, the medical community, pharmacies, and regulatory boards to establish a comprehensive PDMP strategy.

Establish multidisciplinary action groups consisting of county, state, and federal criminal justice professionals; state and local health authorities; and treatment providers to determine best practices for sharing data, regulatory schemes, deconfliction strategies, intelligence gathering, targeted regulatory and enforcement activity, and prioritization of treatment and prevention efforts for at-risk individuals and communities.

OBJECTIVES:

There are currently over 2.2 million individuals serving time in federal and state prisons, and millions of people cycle through local jails every year. Of those in state and federal prison, approximately 95 percent will be released and return to communities across the nation. A majority of these individuals have needs that, if unaddressed in prison, during the reentry process, and after release, will negatively impact their ability to live productive, pro-social, crime-free lives in the community. These needs include housing and employment challenges, relationship and family issues, and substance abuse and mental health problems.

The Second Chance Act of 2007 (Pub. L. 110-119) helps to address these significant challenges by providing comprehensive responses to the significant number of incarcerated adults who are returning to communities from prison, jail, and juvenile residential facilities. Programs funded under the Second Chance Act help to promote public safety by ensuring that the transition individuals make from prison and jail to the community is successful.

Please see the BJA website at https://www.bja.gov/ for more information on Second Chance Act programs.

16.813 NICS ACT RECORD IMPROVEMENT PROGRAM (NARIP)

FEDERAL AGENCY:
Bureau of Justice Statistics, Department of Justice

AUTHORIZATION:

OBJECTIVES:
To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from...
possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 (the Brady Act) (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Acts record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

TYPES OF ASSISTANCE:
Cooperative Agreements

USES AND USE RESTRICTIONS:
The Act outlines the allowable uses of grant funds:

Grants to States:

Section 103 of the NICS Improvement Act, regarding implementation assistance to the states, provides that the grants "shall be used by the States and Indian tribal governments, in conjunction with units of local government and State and local courts, to establish or upgrade information and identification technologies for firearms eligibility determinations." In accordance with the Act, a grant to a state, territory or Indian tribes may only be used to:

Create electronic systems, which provide accurate and up-to-date information which is directly related to checks under the NICS, including court disposition and corrections records;

Assist states in establishing or enhancing their own capacities to perform NICS background checks;

Supply accurate and timely information to the Attorney General concerning final dispositions of criminal records to databases accessed by NICS;

Supply accurate and timely information to the Attorney General concerning the identity of persons who have a federally prohibiting mental health adjudication or commitment;

Supply accurate and timely court orders and records of misdemeanor crimes of domestic violence for inclusion in federal and state law enforcement databases used to conduct NICS background checks;

Collect and analyze data needed to demonstrate levels of state compliance with the Act; and

Maintain the required relief from disabilities program in accordance with the Act, however, not less than 5 percent and no more than 10 percent of each grant shall be used for this purpose.

State Court Grants

Section 303 of the Act provides that grants shall be made to each state and territory, consistent with the states plans for the integration, automation, and accessibility of criminal history records, for use by the court systems to improve automation and transmission to federal and state repositories of: (1) criminal history dispositions; (2) records relevant to determining whether a person has been convicted of a misdemeanor crime of domestic violence or a prohibiting domestic violence protection order; and (3) prohibiting mental adjudications and commitments. Further, the law provides that the amounts granted shall be used by the state court system only to:

Carry out, as necessary, assessments of the capabilities of state courts to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories; and

Implement policies, systems, procedures to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories.

Applicant Eligibility:
Applications must be submitted by (a) the agency designated by the Governor to administer the National Criminal History Improvement Program (NCHIP); and (b) the State or territory central administrative office or similar entity designated by statute or regulation to administer federal grant funds on behalf of the jurisdiction's court system; or (c) a federally recognized Indian Tribal government.

Beneficiary Eligibility:
In accordance with the NICS Improvement Amendments Act (see 18 U.S.C. 922 note), there are two specific conditions that each state must satisfy before being eligible to receive grants:

1. First, each State shall provide the Attorney General with a reasonable estimate, as calculated by a method determined by the Attorney General of the number of the records subject to the NHA completeness requirements. (Id.)

2. Second, to be eligible for a grant under this program, a State shall certify, to the satisfaction of the Attorney General, that the State has implemented a relief from disabilities program. (Id.)

For the purpose of this solicitation, a relief from disabilities program is a program that permits persons who have been adjudicated a mental defective or committed to a mental institution to obtain relief from the firearms disabilities imposed by law as a result of such adjudication or commitment. This relief must be based on a finding, in accordance with principles of due process, by a state court, board, commission, or other lawful authority, that the circumstances of the disability and the persons record and reputation are such that the person will not be likely to act in a manner dangerous to the public safety and that the granting of relief would not be contrary to the public interest. The certification form is available on the ATF website at www.atf.gov/forms/download/atf-f-32210-12.pdf. For further information, please visit NICS Improvement Act Questions and Answers on the BJS website.
Further, applications submitted on behalf of state court systems must specifically assure that: (1) the court system has the capability to contribute and will transmit pertinent information to the NICS established under section 103(b) of the Brady Handgun Violence Prevention Act (18 U.S.C. 922 note), and (2) that it will coordinate the programs proposed for NARIP funding with other federally funded information technology programs, including directly funded local programs.

CREDENTIALS/DOCUMENTATION:

The applicant must furnish all documentation required by the program solicitation, along with the application for an award, including: a detailed budget, a budget narrative, and a program narrative describing how funds would be utilized. Applicants must also furnish a NICS Record Improvement Plan as part of the application which reflects (a) the formation of a NICS Record Improvement Task Force, an assessment of the quality and availability of qualifying NICS records in the State, obstacles preventing full and complete transmission to the NICS of the available records, and strategies planned to address such challenges and achieve completeness goals.

Regarding the question below relating to the applicability of 2 CFR 200, Subpart E - Cost Principles: The cost principles are generally applicable, except with respect to for-profit entities or to organizations listed at Appendix VIII to 2 CFR Part 200. 2 CFR 200, Subpart E - Cost Principles applies to this program.

FEDERAL AGENCY:

AUTHORIZATION:

Every year, millions of children and adolescents in the United States are victimized and exposed to violence in their homes, schools, and neighborhoods. Child victims of or witnesses to violence may suffer devastating consequences beyond physical harm, which may include attachment difficulties, regressive behavior, anxiety, depression, and aggression. The Children Exposed to Violence program builds on and incorporates the knowledge gained through research, programs, and demonstration initiatives that have addressed the problem of children exposed to violence over the past decade. The Program features a comprehensive effort to identify successful policies and practices that address the trauma as well as harm that children exposed to violence experience in their homes, communities, and schools. The Program supports prevention, intervention, treatment, and community organizing, and professional as well as public education strategies to implement a comprehensive continuum of care for children and teens, from birth through age 17, who have been exposed to violence. The ultimate goals of the Children Exposed to Violence Program are to reduce the frequency and severity of violence, reduce the short- and long-term traumatic impact of violence, increase community safety and accountability, improve the response to children exposed to violence, improve the safety and well-being of children, and create a national dialogue on the issue of children exposed to violence.

16.820 POSTCONVICTION TESTING OF DNA EVIDENCE

Kirk Bloodsworth Program

FEDERAL AGENCY:
National Institute of Justice, Department of Justice

AUTHORIZATION:
An act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:
This program offers assistance to States, units of local government, and public institutions of higher education (including tribal institutions of higher education), to help defray the costs associated with postconviction case review, evidence location, and DNA testing in violent felony cases where actual innocence might be demonstrated. This supports the DOJ mission to ensure fair and impartial administration of justice for all Americans. While successful exonerations to correct injustice are notable program outcomes, the careful
review, consideration and closing of cases subjected to postconviction DNA testing that do not ultimately demonstrate innocence also work to advance the publics interest that justice has been fairly applied. Funding may be used to review postconviction cases of violent felony offenses (as defined by State law), and to locate and conduct DNA analysis of biological evidence samples associated with these cases. Where a strong justification is provided, a small percentage of Federal award funds may be used for permissible case identification activities.

**TYPES OF ASSISTANCE:**
Project Grants (Discretionary)

**USES AND USE RESTRICTIONS:**
Funds may be used to acquire laboratory supplies for DNA analysis of biological evidence; pay overtime for people directly engaged in case review, location of evidence, or DNA analysis of biological evidence; to hire consultants and/or temporary contract staff to conduct case reviews, locate evidence, or conduct DNA analysis of biological evidence; for contracts with accredited fee-for-service vendors to conduct DNA analysis of biological evidence; to upgrade, replace, lease, or purchase computer hardware or software that will be used exclusively for case review, location of evidence, or DNA analysis of biological evidence; for salaries and benefits of additional full- or part-time employees to the extent such employees are directly engaged in case review, location of evidence, or DNA analysis of biological evidence; and, in limited cases, for &417;case identification activities. Funds may not be used for salaries and benefits for victim advocacy services; laboratory equipment; construction; renovation; costs for postconviction relief litigation, after DNA testing of biological evidence has been completed; or outreach and initial screening activities not included in case identification.(as this term is defined in the program announcement).

**Applicant Eligibility:**
Eligible applicants are States, units of local government, and public institutions of higher education (including tribal institutions of higher education). For the purposes of agency program announcements, the term State includes the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samou, Guam, and the Northern Mariana Islands.

**Beneficiary Eligibility:**
Ensures the availability of fair and impartial administration of justice to Americans who may have been unjustly convicted.

**Credentia/Documentation:**
If an award is made, prior to receiving award funds an applicant must submit an express certification from the chief legal officer of the State (typically the Attorney General) that the State:

i. Provides postconviction DNA testing of specified biological evidence under a State statute, or under State rules, regulations, or practices, to persons convicted after trial and under a sentence of imprisonment or death for a State offense of murder or forcible rape, in a manner intended to ensure a reasonable process for resolving claims of actual innocence.

ii. Preserves biological evidence secured in relation to the investigation or prosecution of a State offense of murder or forcible rape, under a State statute, local ordinances, or State or local rules, regulations, or practices, in a manner intended to ensure that reasonable measures are taken by all jurisdictions within the State to preserve such evidence.

Any certification that is submitted must be personally executed by the chief legal officer of the State after a determination that the certification may properly be made. While it may be submitted with the application package, submission of this certification is not required at the time of application. If an award is made, access to award funds will be withheld until this certification is received and approved by NIJ.

Applicants proposing postconviction DNA testing projects involving cases outside of the applicants State are to provide (prior to receiving award funds) the express certification described above executed by the chief legal officer of the appropriate State for each State for which postconviction cases are sought to be funded in response to the program announcement.

Regarding the question below relating to the applicability of 2 CFR Part 200, Subpart E - Cost Principles: The cost principles are generally applicable, except with respect to for-profit entities or to organizations listed at Appendix VIII to 2 CFR Part 200.

AUTHORIZATION:
An act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:
The Smart Prosecution Initiative builds off of the lessons learned from BJA's other SMART Suite programs and seeks to pair action researchers with prosecutor offices to develop solutions such as hot spot strategies, sophisticated crime analysis, offender-based policies, and risk and needs assessment that create prosecution strategies in an effort to break down information silos, advance communities, improve public trust and confidence in the justice system, and increase public safety.

As prosecutors implement innovative, best practices or evidence-based approaches to address the goals listed below, there is a need to evaluate their efforts. The Smart Prosecution Initiative seeks to encourage exploration of new solutions to public safety concerns, as well as internal operations and organizational structure, while employing research partners at the problem definition stage through assessment of strategies and solutions. Some creative solutions developed by prosecutors around the country include changing how their organizations prioritize cases, using zone/geographic prosecution, using crime analysis tools to reduce gun violence, nuisance abatement, crime prevention through environmental design, drug-free and prostitute-free zones, restorative justice, community courts, truancy abatement, diversion programs, crime analysis, and cyber-crime strategies to improve public safety. Prosecutors are becoming partnership builders who bring the police, the community, and other criminal justice and local agencies together to find ways they can work together to solve problems in their jurisdictions.

The goal of Smart Prosecution is to develop a body of knowledge about data-driven strategies innovative, best practice, or evidence-based that they are implemented by prosecutors. BJA sought applications from state, local, or tribal prosecutor agencies interested in testing data-driven approaches that address one or more of the following three goals:

- Promoting fair, impartial, and expeditious pursuit of justice;
- Ensuring safe communities; and
- Promoting integrity in the prosecution profession and effective coordination in the criminal justice system.

TYPES OF ASSISTANCE:
Project Grants (Discretionary)

Applicant Eligibility:
Site-based-- Eligible applicants are limited to state, local, and tribal prosecutor agencies or a government agency acting as fiscal agent for the applicant.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016. Kings County District Attorneys Office (Brooklyn)

PROJECT: The Brooklyn Young Adult Justice Initiative

As of June 23, the site reports 1,781 open cases pending in the Adolescent Diversion Court, which offers diversion instead of prosecution for young adults, 16-24 years old, charged with misdemeanor offenses, who are at the greatest risk for re-offending and/or are facing more serious criminal consequences.

Two Assistant District Attorneys joined the Bureau since June, bringing the total number of prosecutors in the unit up to five.

San Diego City Attorneys Office

PROJECT: The Community Justice Initiative (CJI)

CJI uses data and evidence-based practices to restore justice and increase effectiveness and efficiency through a post-plea, city-wide diversion initiative to provide accountability, early intervention, and swift consequences for participants charged with eligible misdemeanor offenses.

As of June 30, the site reports that: 3,943 offers made; 2,650 offers accepted; 1,293 offers rejected; 2,048 offers completed; and 423 participants failed out of the program. These numbers reflect enrollment since November 2016. The site has also completed 224 CJI Proxy Risk Screenings and 61 CJI assessments.

The site received its software platform/kiosk for client screening. The kiosks will electronically administer the proxy screen to determine high, medium, or low risk scores for program participants (a case manager previously conducted the risk assessment). The site is working with the courthouse for installation, and expects the kiosks to be up and running by September. The site is also building new software for the kiosks.

District of Columbia Office of the Attorney General

PROJECT: Using Our Brains: Reducing Recidivism among Youth and Young Adults

The site is furthering collaboration with the DC US Attorneys Office (USAO). Both offices plan to develop a diversion-based initiative, using restorative justice, for youth (ages 12-17) and young adults (ages 18-24) who commit certain crimes, such as theft; destruction of property and non-injury simple assault cases with victim consent. The team is evaluating USAO data for program development.

The site hired a restorative justice coordinator and two facilitators who will staff their restorative justice panels. The site team, partners, and office staff will receive ongoing support and assistance for program implementation and
restorative justice training from the Baltimore Community Conferencing Center.

Jackson County Prosecutors Office (Kansas City)
PROJECT: Jackson County Prosecutors Office Smart Prosecution Initiative

The sites geographic-based initiative targets the East Zone, the most violent area within Kansas City. Team members will collaborate with law enforcement, community partnership specialists, and community members to assess crime-related problems in the East Zone and implement strategies to address them.

A system for hot spot cases has been developed. The site has access to sophisticated mapping software.

The Essex County Prosecutors Office (Newark)
PROJECT: Essex County SMART Social Media Initiative

A specialized unit has been developed to investigate and prosecute cases based on suspects usage of social media. The site envisions a systematic, proactive approach to social-media mining that will reduce crime, empower victims, promote fair and impartial justice, and instill the publics confidence in criminal justice.

Since the beginning of the initiative, the team has experienced successful identification hearings where witnesses and victims identify defendants without law enforcement involvement. The site continues to educate the judges about this process. The site continues screening about 3-6 potential cases per week, and reports that most cases have social media connections, due to witnesses initially identifying defendants through social media. Since June, the site has 19 confirmed cases in the treatment group, and another 50 tentative cases.

District Attorney of Chatham County (Savannah)
PROJECT: The Chatham County Smart Prosecution Program

The initiative aims to reduce gun, local group, and gang violence by focusing on: identifying and targeting a geographic hot spot for gun violence in the Savannah area and most violent offenders within it; tracking and prioritizing prosecution and individuals within the hot spot; diverting non-essential cases (e.g., theft and simple drug possession) to alternative programs; and, engaging with community groups within the hot spot through meetings, social media forums, and other outreach strategies. As of June 26, there are 19 active cases in the target zone area, including both new charges and probation violations. Total cases including active and disposed cases have reached 30. The sites goal is to reach 50 active cases soon.

The site continues its work with engaging community members, by attending neighborhood association meetings. The program End Violence Now is now housed under the District Attorneys office; this move will promote community engagement and allow team members to work directly with the Youth Intercept Program.

The sites researchers at Georgia Southern University are developing a process evaluation tool. The researchers are also creating one-page briefs on certain topics (such as policing hot spots) that can be quickly digested and used by practitioners. The researchers are currently focusing on social network analysis and spatial analysis, and have recently received data from the Savannah Area Regional Intelligence Center. 16.827 JUSTICE REINVESTMENT INITIATIVE

FEDERAL AGENCY:
Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:
An act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:
The Justice Reinvestment Initiative employs a data-driven approach to improve public safety, reduce corrections and related criminal justice spending, and reinvest savings in strategies that can decrease crime and strengthen neighborhoods. JRI provides technical assistance and competitive financial support to states, counties, cities, and tribal authorities that are either currently engaged in justice reinvestment or are well positioned to undertake such work.

JRI technical assistance supports states justice system stakeholders and policy leaders as they devise and implement data-driven approaches to criminal justice reform. Under the JRI model, a governmental working group with bipartisan and inter-branch representation analyzes the correctional population and its costs, develops cost-effective policy options, and implements reforms to manage correctional populations while enhancing public safety. JRI jurisdictions reinvest these cost savings into high-performing initiatives that make communities safer. In addition to reducing prison populations, justice reinvestment encourages states to embrace a culture of greater collaboration, data-driven decision-making, and increased use of evidence-based practices.

States may also compete for direct funding through the Justice Reinvestment Initiative: Maximizing State Reforms program which is designed to cement or amplify the goals of states justice reinvestment reform efforts, deepening their reforms. This program is designed to cement or amplify the goals of states justice reinvestment reform efforts, deepening their commitment to and use of data-driven decision-making and evidence-based practices and programs. The objectives of the Maximizing State Reforms program are the following:

Increase corrections costs saved or avoided by reducing unnecessary confinement.
Increase reinvestment in evidence-based practices that reduce recidivism.
Support justice reinvestment reform efforts by promoting and increasing collaboration among agencies and officials who work in criminal justice, including state and local policymakers, law enforcement, prosecution, defense, pretrial, courts, probation, treatment, corrections, reentry, and parole.
Enhance the translation of evidence into practice by supporting the use of data analysis results to inform policy decisions.

AUTHORIZATION:
National Apprenticeship Act of 1937 (Fitzgerald Act).

Unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the OMB approved exceptions for DOL at 2 CFR Part 2900 published on December 19, 2014 in the Federal Register., Title 29, Part 29, Public Law 075-75-308, 29 U.S.C 1-4.

OBJECTIVES:
To promote, engage, and assist industry in the development, expansion, and improvement of Registered Apprenticeship. This program is designed to: provide skilled workers required by U.S. employers, ensure equal employment opportunities, and ensure the quality of all new and existing Registered Apprenticeship programs.

TYPES OF ASSISTANCE:
Advisory Services and Counseling; Project Grants (for specified projects); Training

USES AND USE RESTRICTIONS:
The Registered Apprenticeship system has been utilized to meet the needs of America's skilled workforce for more than 75 years. It is a unique, flexible training system that combines job-related-technical instruction with structured on-the-job learning experiences. Registered Apprenticeship is a leader in preparing American workers to compete in a global 21st Century economy because the system keeps pace with advancing technologies and innovations in training and human resource development. Under the Office of Apprenticeship (OA), apprenticeship training programs and apprentices are registered in 25 States. OA also provides technical assistance and works closely with State Apprenticeship Agencies (SAAs) in the remaining 25 States, the District of Columbia, Guam, and two territories that register programs and apprentices in accordance with Federal standards. OA provides information on existing and recommended standards of training in Registered Apprenticeship. The wage rates of apprentices in registered programs (Federal and State) are exempt from the prevailing wage requirements of the Davis-Bacon Act and the Service Contract Act.

Registered programs are driven directly by the demands of the labor market. The training is industry-recognized, voluntarily sponsored by an individual business or an employer association, and may be partnered with a labor organization through a collective bargaining agreement. OA brings these entities together, as appropriate, to formulate Registered Apprenticeship training programs which meet the federal standards. There are no grant funds available to employers for construction of training facilities, curricula development, and apprentices' subsides. Apprentices start working from day one with incremental wage increases as they become more proficient on the job. Apprenticeships range from one to six years.

The "Earn and Learn" training model of Registered Apprenticeship provides an assigned mentor for the on-the-job learning. The related instruction, technical training, or other certified training is provided by training centers, technical schools, community colleges and/or institutions employing distance and computer-based learning approaches. The goal is to provide workers with advanced skill sets that meet the specific needs of employers. Upon completion of a Registered Apprenticeship program, participants receive an industry issued, nationally-recognized credential that certifies occupational proficiency, is portable, and can provide a pathway to the middle class. In many cases, these programs provide apprentices with the opportunity to simultaneously obtain secondary and post-secondary degrees. Registered Apprenticeship is highly active in traditional industries such as construction and manufacturing but it is also instrumental in training and development in high-growth industries such as advanced manufacturing, energy, health care, homeland security, information technology, telecommunications, and more. The Registered Apprenticeship system provides the opportunity for workers seeking high-skilled, high-paying jobs and for employers seeking to build a quality workforce. In this regard, the Registered Apprenticeship system meets the needs of both workers and employers.

Applicant Eligibility:
Employers, unions, and other workforce intermediaries can be eligible to start and maintain Registered Apprenticeship programs. The vast majority of programs are not funded by Federal grant funds. The OA and SAs provide technical assistance.

OA also administers two grant programs, as follows:

I. Women in Apprenticeship and Non-Traditional Occupations (WANTO) grants fund innovative projects to community-based organizations (CBOs) that are designed to improve women’s participation in Registered Apprenticeship programs for nontraditional occupations in a broad range of industries. WANTO grants were awarded for Program Year (PY) 2015 and PY 2016 to three CBOs to establish regional/multi-state Technical Resource Centers to assist Registered Apprenticeship program sponsors to improve the recruitment, hiring, training, employment, and retention of women in apprenticeships. PY 2013 and PY 2014 funds were similarly awarded to three CBOs for the same purposes. Future funding was not requested for PY 2017. These grants are jointly administered by the Department of Labor’s Women’s Bureau and the Employment and Training Administration. See http://www.doleta.gov/grants/grants_awarded.cfm.

II. Apprenticeship/State Accelerator Grants/State Expansion Grants

Registered Apprenticeship has made available $60 million in grants to help states governments integrate apprenticeship into their education and workforce systems; engage industry and other partners at scale to expand apprenticeships to new sectors and new populations; support state capacity to conduct outreach and work with employers to start new programs; provide support to promote greater inclusion and diversity in apprenticeship, and implement state innovations, incentives and system reforms. By investing in state strategies for growing Registered Apprenticeship opportunities, these funds will help strengthen the foundation for the rapid and sustained expansion of quality apprenticeship nationwide. These grants are covered under CFDA 17.285.

Beneficiary Eligibility:

Registered Apprenticeship program sponsors identify the minimum qualifications to apply into their apprenticeship programs. Individuals applying for acceptance into an apprenticeship program must be at least 16 years old. To be an apprentice in a hazardous occupation, the individual must usually be 18 years. Program sponsors may also identify additional minimum qualifications and credentials to apply, e.g., education, ability to physically perform the essential functions of the occupation, ability to complete the related technical instruction, proof of age.

Along with the completed application form, each prospective apprentice may be required by the program sponsor to submit a transcript of school subjects and grades, proof of age, an honorable military discharge (if applicable), and a high-school diploma or equivalence certificate (if applicable). References from all previous employers may be required.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For Program Registration: Prospective program sponsors must meet with an OA or SAA field representative, as appropriate, for technical assistance to develop a set of apprenticeship program standards. These include the age and educational background of apprentices, and a schedule of the work processes and related technical instruction subjects to be covered during the training program. The program will be registered if it meets Federal requirements covering (a) the apprenticability of the occupation(s) and (b) the suitability of the training standards for providing apprentices with sufficient knowledge to become skilled workers.

17.207 EMPLOYMENT SERVICE/WAGNER-PESYER FUNDED ACTIVITIES

Wagner-Peyser Act of 1933.

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

Workforce Innovation and Opportunity Act (WIOA) of 2014.

OBJECTIVES:

The Employment Service (ES) program brings together individuals looking for employment and employers looking for job seekers. It does this by providing a variety of services, which are available to all individuals. The program provides Job seekers with career services, including labor exchange services, job search assistance, workforce information, referrals to employment, and other assistance. Employers can use the ES to post job orders and obtain qualified applicants.

TYPES OF ASSISTANCE:

FORMULA GRANTS: Project Grants

USES AND USE RESTRICTIONS:

FORMULA GRANTS:

Wagner-Peyser Employment Services Grants: The Wagner-Peyser Act of 1933 established a nationwide system of public employment offices collectively known as the Employment Service (ES). The Workforce Innovation and Opportunity Act (WIOA), amended Wagner-Peyser, making the Employment Service part of the American Job Center (AIC) Network, also known as the One-Stop Career Center delivery system. AJCs provide an integrated array of high-quality services which allow workers, job seekers, and businesses to access services under one roof, with many services also offered through self-service electronic access, both at the Centers and remotely on the Internet. These services provide universal access to all including persons with barriers to employment.

For Wagner-Peyser Employment Services Grants to States, funds must be used for career services, including labor exchange activities and the provision of labor market information. Training is not an allowable activity. Services
Application Procedures:

Labor Market Information Grants to States: These fund the provision of state and local workforce information to job seekers, employers, and educators, job trainers, economic developers and others. Such information includes job opportunities, employment projections, workforce trends, career guidance, wage rates, and other data and information.

The amended Wagner-Peyser Act under WIOA has enhanced collaboration among employment and training programs by States mandating co-location of ES offices with the one-stop offices. WIOA aligns the service delivery, planning and performance data within the one-stop delivery system. For Wagner-Peyser Employment Services Grants to states, the funds must be used for career services, including labor exchange activities, labor market, for workforce information purposes. Training is not an allowable activity.

Applicant Eligibility:

The Planning Guidance provides detailed instruction on what must be included in the State Plan. The Unified Planning Guidance provides a framework for collaboration across programs and integration of services, including WIOA Title I programs and Wagner-Peyser Activities, and WIOA Titles II and IV programs overseen by the Department of Education. The Combined Plan includes these programs as well as other non-DOL programs. The plan is submitted to the Federal Coordinator for Plan Review and Approval (currently Heather Fleck), Division of WIOA Adult Services and Workforce System, Office of Workforce Investment, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4299, Washington, DC 20210.

SCSEP is a job-skills training program that helps unemployed, low-income seniors (ages 55 and over) re-enter the workforce. Participants gain work experience at host agencies on a part-time basis.

TYPES OF ASSISTANCE:
FORMULA GRANTS; PROJECT GRANTS

USES AND USE RESTRICTIONS:
Organizations that receive grants use the funds to create and pay for part-time community service training positions for unemployed persons age 55 and above whose income is at or below 125 percent of the poverty level. The individuals who are enrolled may be trained in work assignments at local 501(c)(3) non-profit or government agencies. A portion of the funds may be used to provide participants with classroom training and supportive services. Participants are not to train in projects involving political activities, sectarian activities, or may participants displace any employed worker or perform work which impairs existing contracts for service. Each local project is required to coordinate its activities with local Workforce Investment Act projects and One-Stop Career Centers and the State Office of the Aging. The amount of Federal funds expended for enrollee wages and fringe benefits shall be no less than 75 percent of the grant (20 CFR Section 641.873) except in those instances in which a grantee has requested, and DOL has approved such request, to use not less than 65 percent of the grant funds to pay for participant wage and fringe benefits so as to use up to an additional 10 percent of grant funds for participant training and supportive services (42 USC 3056(c)(6)(C)(i)).

The amount of Federal funds expended for the costs of administration during the program year shall be no more than 13.5 percent of the grant (20 CFR Section 641.867(a)). A waiver of this requirement to increase administrative expenditures to 15 percent may be granted by the Secretary of Labor (20 CFR Section 641.867(b)).

Grantees are required to negotiate share in infrastructure cost with required local partners in accordance with the Workforce Innovation and Opportunity Act (Final Rule 20 CFR 679.370(k)). The Secretary of Labor may reserve up to 1.5 percent of annual appropriation for pilots, demonstration, and evaluation activities and related technical assistance.

Beneficiary Eligibility:
Persons 55 years or older whose family is low-income (income does not exceed the low-income standards defined in 20 CFR Section 641.507) are eligible for enrollment (20 CFR Section 641.500). Low-income means an income of the family which, during the preceding 6 months on an annualized basis or the actual income during the preceding 12 months (whichever method is more favorable to the individual) is not more than 125 percent of the poverty levels established and periodically updated by the U.S. Department of Health and Human Services (42 USC 3056a(x)(i)). The poverty guidelines are issued each year in the Federal Register and the Department of Health and Human Services maintains the poverty guidelines at http://www.aspe.hhs.gov/poverty/index.shtml. 17.245 TRADE ADJUSTMENT ASSISTANCE
FEDERAL AGENCY:
Employment Training Administration, Department of Labor

AUTHORIZATION:
The Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015), title IV of the Trade Preferences Extension Act of 2015 (Public Law 114-27), was signed into law by President Barack Obama on June 29, 2015.

Unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the OMB approved exceptions for DOL at 2 CFR Part 2000 published on December 19, 2014 in the Federal Register., Public Law 114-27.

OBJECTIVES:
The Trade Adjustment Assistance (TAA) for Workers Program is a federal entitlement program that assists workers impacted by foreign trade. Through the provision of a number of employment-related benefits and services, the TAA Program provides trade-affected workers with opportunities to obtain the support, resources, skills, and credentials they need to return to the workforce in a good job in an in-demand industry. The program services include training, employment and case management services, job search allowances, relocation allowances, wage supplements for workers aged 50 and older, and Trade Readjustment Allowances (TRA).

TYPES OF ASSISTANCE:
Formula Grants

USES AND USE RESTRICTIONS:
State Workforce Agencies (SWAs) serve as agents of the United States and administer the worker adjustment assistance benefit provisions of the Trade Act. SWAs, through their American Job Centers (AJC), formerly known as One-Stop Career Centers or by a different name, and other local offices, provide assessments, employment counseling, and job placement services; job search and relocation assistance; and training.

The weekly subsistence payments and wage supplements of TRA and A/RTAA are administered under the Unemployment Insurance program (see CFDA 17.225). State unemployment compensation and extended benefits must be exhausted before TRA is paid to eligible claimants. Trade impacted workers are eligible to receive job search and relocation allowances in addition to the costs of training. They may be paid subsistence and transportation allowances to attend approved training outside the normal commuting distance of a worker's regular place of residence.

Applicant Eligibility:
a. Applicant Eligibility (081):

Currently, ETA administers three separate TAA programs (2002 Program, 2009 Program, and 2011/2015 Program) and six distinct participant cohorts resulting from the enactment of the Trade Adjustment Assistance Reform Act of 2002 (TAARA); Trade and Globalization Adjustment Assistance Act of 2009 (TGAAA); the Trade Adjustment Assistance Extension Act of 2011 (TAAEA); and the Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015), which restores group eligibility criteria and program benefits to the TAAEA level. The relevant laws governing each cohort, marked by certification numbers and effective dates, are provided in the list below, along with the guidance documents that CSAs must continue to apply.

Law Amending the Trade Act of 1974: TARRA (2002 Amendments) Guidance: TEGL No. 11-02 and Changes 1, 2, and 3; TEGL No. 2-03, and Change 1; 20 CFR parts 617 and 618, and 29 CFR part 90.

Effective Dates of Amendments: Applies to petitions filed between November 4, 2002 and May 18, 2009

Effective Dates of Amendments: Applies to petitions filed between May 18, 2009 and February 14, 2011

Law Amending the Trade Act of 1974: TAARA (2002 Amendments under
employment services, and wage supplement for qualified older workers through out-of-area job search and relocation allowances, case management and eligible individuals: training, weekly income support in the form of TRA, The TAA program currently offers the following benefits and services to eligibility criteria that must be met, such as previous work history, Once covered by a certification, individual workers apply for benefits and services, and encourage the type of long-term training necessary for jobs in the 21st century economy through an extension of income support, and access to training for adversely affected incumbent workers.

b. Applicant Eligibility (081)

Under TARRA 2015, the more expansive TAAEA Group Eligibility requirements, including petition investigation criteria, apply to petitions filed on or after June 29, 2015, and retroactively apply to all petitions filed between January 1, 2014, and June 29, 2015. Beneficiary Eligibility:

For a worker to be eligible to apply for TAA, the worker must be part of a group of workers that are the subject of a petition filed with the Department. Three workers of a company, a company official, a union or other duly authorized representative, or an AIC, operator or partner may file that petition with the Department. In response to the filing, the Department initiates an investigation to determine whether foreign trade was an important cause of the workers job loss or threat of job loss. If the Department determines that the workers meet the statutory criteria for group certification of eligibility for the workers in the group to apply for TAA, the Department grants the petition and issues a certification.

Once covered by a certification, individual workers apply for benefits and services through the AICs. Most benefits and services have specific individual eligibility criteria that must be met, such as previous work history, unemployment insurance eligibility, and individual skill levels. The TAA program currently offers the following benefits and services to eligible individuals: training, weekly income support in the form of TRA, out-of-area job search and relocation allowances, case management and employment services, and wage supplement for qualified older workers through RTAA.

OTAA and State contact information, as well as petition forms in English and Spanish, are available through the State Workforce Agencies or from the Office of Trade Adjustment Assistance listed below. The petition forms may also be downloaded from the TAA web-site, or filed online, at: http://www.doleta.gov/tradeact.

Petitions must be filed with both the OTAA and the State agency in which the worker group's facility is located. Notice of such filing shall be promptly published in the Federal Register. Within 10 days after publication, the petitioner or any other person found by the Secretary to have a substantial interest may request a hearing and be afforded the opportunity to be present, to present evidence, and to be heard.

Award Procedure:
A Certification of Eligibility to apply for worker adjustment assistance may be issued by the Secretary of Labor to groups of workers who have been found by the Department of Labor to have met the requirements concerning foreign trade-affected separations from employment. Individual workers covered by the certification can apply to the local office of their State Workforce Agency for individual determinations of eligibility to receive benefits and services.

The Workforce Innovation and Opportunity Act (WIOA) was signed into law on July 22, 2014. It supersedes the Workforce Investment Act of 1998, and amends the Wagner-Peyser Act and the Rehabilitation Act of 1973. This regulation has been submitted to the Office of the Federal Register (OFR) for publication, and is currently pending publication in the Federal Register. Only the version published in the Federal Register is the official publication, Public Law 113-128.

**OBJECTIVES:**
The Adult Program is one of the six core programs authorized by Title I of the Workforce Innovation and Opportunity Act (WIOA). The program serves individuals and helps employers meet their workforce needs. It enables workers to obtain good jobs by providing them with job search assistance and training opportunities. Under WIOA, the Adult Program will ensure that the unemployed and other job seekers have access to high-quality workforce services, and that priority for services will be given to those who are public assistance recipients, low-income individuals, and/or basic skills deficient. In addition, the program will provide individuals with disabilities access to high quality workforce services, and better prepare them for competitive, integrated employment. Performance program measures include entry into unsubsidized employment, earnings, skills and credentials attainment. The employment goals are measured by using the Unemployment Insurance Wage Records Information System whenever possible.

**TYPES OF ASSISTANCE:**
Formula Grants

**USES AND USE RESTRICTIONS:**
WIOA specifies that most services for adults will be provided through the American Job Center Network, also known as one-stop career centers or workforce centers. It authorizes that funds be used to provide career services, which are classified into two categories: basic and individualized services. Basic services are available to all job seekers and include labor exchange services, labor market information, job listings, and information on partner programs. Individualized services include training and supportive services, such as child care and needs-related payments. These are made available to individuals after an interview, assessment or evaluation determines that the individual requires training to obtain employment. These training services will be linked to job opportunities in their communities, including occupational training, work-based training and basic skills training. To promote customer choice and involvement in career decisions, some participants use an "Individual Training Account (ITA)" to select an appropriate training program from an eligible training provider. Consistent with the allowable activities in the statute.

**Applicant Eligibility:**
Under WIOA, the entities eligible to receive funding from the Department are the 50 States, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula provided in the authorizing legislation. The Adult Program ensures that the states receive funds that are appropriate for operating American Job Centers (approximately 2,400 nationwide).

**Beneficiary Eligibility:**
All adults 18 years of age and older are eligible to receive career services. Several populations receive priority, with States and local areas being responsible for establishing procedures for applying the priority requirements. Priority of service is given to veterans and other covered persons. Priority for career and training services must be given to public assistance recipients, other low income populations, and low-skilled individuals.

**Credentials/Documentation:**
Formula-funded programs must submit a Governor/Secretary Agreement and a State Plan. States also sign a grant document agreeing to comply with the Act and regulations. 2 CFR 200, Subpart E - Cost Principles applies to this program.

**Preapplication Coordination:**
Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

**Application Procedures:**
2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Governor must submit a single WIOA Unified or Combined State Plan in accordance with planning guidance issued through the Federal Register. The planning guidance provides detailed instruction on what must be included in the State Plan, and provides a framework for collaboration across programs and integration of services, including the WIOA Title I programs, Title III Wagner-Peyser Activities, and WIOA Titles II and IV programs housed with the Department of Education.

**Award Procedure:**
Those portions of the State Plan over which the Assistant Secretary for Employment and Training exercises authority are reviewed and approved by the Employment and Training Administration. Formula funds are awarded to the Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4209, Washington, DC 20210.

**Award Procedures:**
Those portions of the State Plan over which the Assistant Secretary for Employment and Training exercises authority are reviewed and approved by the Employment and Training Administration. Formula funds are awarded to the states based on a statutory formula provided in the authorizing legislation.

**Deadlines:**
Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**
From 60 to 90 days. State plans will be reviewed in accordance with 20 CFR 661.220(e), which provides that the Secretary must approve all state plans within 90 days of their submission, unless the Secretary determines in writing that: (1) the State Plan is inconsistent with the provisions of Title I of WIOA or the WIOA regulations, including 29 CFR Part 37; or (2) the portion of the State Plan impacting the Wagner-Peyser Act plan does not satisfy the criteria for approval in Section 8(d) of the Wagner-Peyser Act or the Wagner-Peyser Act regulations at 20 CFR Part 652.

Employment Training Administration, Department of Labor

**AUTHORIZATION:**

Adult Education and Family Literacy Act;

**OBJECTIVES:**

To carry out innovative programs consistent with the purposes of Title I of WIA (Workforce Investment Systems), Title II of WIA (Adult Education and Family Literacy Act (AEFLA), 20 U.S.C. 9201 et seq.), the Carl D. Perkins Vocational and Applied Technology Education Amendments of 1998 (Public Law 105-332, 20 U.S.C. 2301 et seq.) or a combination of two or more of these acts. This is the last year of incentive grants.

The new legislation, Workforce Innovation and Opportunity Act (WIOA), Public Law 113-128, did not authorize these grants.

**TYPES OF ASSISTANCE:**

Project Grants

**USES AND USE RESTRICTIONS:**

States have great flexibility in using these funds and are not limited to...
conducting only one type of innovative program. However, the use of grant funds must be consistent with WIA Section 503, including the requirement that they be used for innovative programs which further the purposes of WIA Titles I and II, AEFLA and/or the Perkins Act. In addition, grantees must comply with the requirements of whichever program the innovation affects. For example, if the incentive funds will be used for innovations in the delivery of youth activities under WIA Title I, the program must be consistent with WIA Title I provisions applicable to youth activities and the WIA regulations at 20 CFR part 664. States must submit a plan describing the innovative activities to be funded with this grant. States are expected to use funds for services and activities: (1) beyond those provided with regular funds from the three programs, particularly those authorized by one of these programs and another program; (2) which serve the needs of populations intended to be served by one or more of these programs; and (3) targeted to improving the performance of State systems of employment, training, and education. In addition, States are encouraged to plan activities that promote cooperation and collaboration among the agencies administering WIA Title I, AEFLA, and Perkins Act programs. States may only use funds in accordance with WIA, AEFLA, or Perkins Law III/IV. Program Year (PY) 2013 was the last year of incentive grants as WIOA does not authorize these grants.

Applicant Eligibility: A listing of States eligible to receive incentive grants for Program Year 2013 performance was published in the Federal Register on May 1, 2015. This is the last year that incentive grants will be awarded to states. WIOA does not authorize these grants.

Under WIA, to qualify for a grant, a State must have exceed performance levels agreed to by the Secretary of Education, the Secretary of Labor, the Governor, and the State Education Officer, for outcomes in Titles I and II of the Workforce Investment Act (WIA) and the American Education and Family Literacy Act (AEFLA), which include placement after training, retention in employment, and improvement in literacy levels, among other measures.

Beneficiary Eligibility: Regulations at 20 CFR 666.210 authorize the state to use its incentive grant award to carry out an innovative program consistent with the requirements of any one or more of the programs within Title IB or Title II of WIA or the Perkins Act. See Training and Employment Guidance Letter (TEGL) 20-01, Change 13 for additional information (http://wdr.doleta.gov/directives/attach/TEGL/TEGL%2020-01.Change%2013.Acc.pdf).

Credentials/Documentation:
Documentation of the exceeded performance measures must be available via the annual performance report. See Training and Employment Guidance Letter 8-99 (http://wdr.doleta.gov/directives/attach/TEGL/8-99.pd) for additional information on the incentives process. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination: The application must include assurances that: the State legislature was consulted with respect to the development of the application; the application was approved by the Governor, the eligible agency for adult education, as defined in WIA Section 203(4) (20 U.S.C. 920(4)); and the State agency responsible for vocational and technical education programs, as defined in Perkins Act Section 3(9) (20 U.S.C. 2302(9)); and the State and the eligible agency, as appropriate, exceeded the State adjusted levels of performance for WIA Title I, the State adjusted levels of performance for AEFLA, and the performance levels established for Perkins Act programs. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures: This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Grants for projects were awarded each year to those states and territories that exceed their WIA and AEFLA performance measures. A Federal Register Notice (FRN) was published announcing the award winning states as well as the amount of the award. A Training and Employment Guidance Letter (TEGL) was published to provide guidance for the submission of the application. The FRN and the TEGL were published on the Performance Web site at https://www.doleta.gov/performance/results/incentives_sanctions.cfm.

States develop a proposal and budget that demonstrate how they will provide services in accordance with the WIA, AEFLA and or Perkins IV laws. ETA coordinates the review of applications with the Department of Education.

Award Procedure: States must exceed performance for WIA Adult, Dislocated Worker and Youth programs as well as meet performance in AEFLA. Representatives from DOL and Education review states’ performance and compile a list of those states meeting both sets of performance requirements. States are allocated a share of the incentive funds based on their proportionate share of WIA and AEFLA title funds. States must submit an application indicating they will meet all requirements of WIA and AEFLA as well as Perkins IV before funds can be granted. See USDOL, ETA guidance TEGL 20-01, Change 13 at: http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=3981 for the PY 2013 (last round) guidance.

A very small percentage of funds will be used by the Department of Labor for grants administration, technical assistance, and performance reporting.

The FOAs provide all of the necessary information for applying for federal assistance.

Award Procedure:
Procedures for each project are specified in the applicable request for proposals. Generally, the procedure is as follows: A technical review panel composed of staff from ETA program offices as well as peer reviewers evaluates eligible submitted applications. The panel prepares a report for the ETA Grant Officer identifying the strengths and weaknesses of the application and the cumulative rating. Selections are made based on the best rated proposals, as well as other factors cited in the FOA. Once selections are made by the Grant Officer, an Award Notification is sent through the appropriate congressional channels for notification. To protect the jobs of American workers; ensure that the wages and working conditions of U.S. workers will not be adversely affected by the admission of foreign workers; and assist employers by supplementing the work force with needed skills.

TYPES OF ASSISTANCE:
PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

Employers may, upon meeting certain conditions of employment, use this assistance to seek the admission of foreign workers for positions in the United States, provided that the employment of such foreign workers will not adversely affect the wages and working conditions of similarly-employed U.S. workers.

Applicant Eligibility:

Under Section 212 (a)(5)(A) of the Immigration and Nationality Act, foreign workers who seek to immigrate to the United States for employment shall be excluded from admission unless the Secretary of Labor determines and certifies to the Secretary of State and Secretary of Homeland Security that there are not sufficient U.S. workers available for the position and that the employment of such foreign workers will not adversely affect the wages and working conditions of similarly-employed U.S. workers. The certified employer must hire the foreign worker as a full-time employee; there must be a bona fide job opening available to U.S. workers; and job requirements must adhere to what is customarily required for the occupation in the U.S. and may not be tailored to the foreign worker's qualifications. In addition, the employer shall document that the job opportunity has been and is being described without unduly restrictive job requirements, unless adequately documented as arising from business necessity. The employer must pay at least the prevailing wage for the occupation in the area of intended employment.

Beneficiary Eligibility:

Any employer who is unable to find qualified U.S. workers to meet his or her needs and seeks to hire a foreign worker to fill a given job vacancy on a permanent basis is eligible to file an application for permanent labor certification with the Department of Labor. An employer who seeks to employ a foreign worker whose category of employment is included in the Department of Labor, Schedule A, list of pre-certified occupations contained in Part 656, Title 20, Code of Federal Regulations is eligible to file an application directly with the appropriate U.S. Citizenship and Immigration Services Office.

Credentials/Documentation:

Preapplication Coordination:

Prior to filing the application for permanent employment certification, the employer must request a prevailing wage determination from the National Prevailing Wage Center (NPWC). When filing, the employer must attest, in addition to a number of other conditions of employment, to having conducted recruitment prior to filing the application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Employers must file labor certification applications for permanent employment directly with the Atlanta National Processing Center (except for Schedule A occupations). See https://www.foreignlaborcert.doleta.gov/perm.cfm for additional details.

Award Procedure:

If the Office of Foreign Labor Certification approves the application, the application form is “certified” (approved) by the Certifying Officer and returned to the employer/agent who submitted the application. The labor certification is then filed by the sponsoring employer in support of its immigrant worker petition with the United States Citizenship and Immigration Services (USCIS).

See https://www.foreignlaborcert.doleta.gov/ for more information on specific programs.

Award Procedure:
Employers must prove they qualify for foreign labor certification before they can move to the next step of the employment-based immigration process. Certifications are sent to the employer in support of the petition to be filed with the U.S. Citizenship and Immigration Services which determines admissibility and visa classification. The employer, via the ETA Form 9142, advises as to the type of visa supported by the application. Certified copies of accepted attestations for the D-1 Crewmember program are returned to the employer and the USCIS is notified of the filing in writing.

**Preapplication Coordination:**

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12172.

**APPLICATION PROCEDURES:**

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications submitted requesting funding for administrative costs in response to this UIPL must contain four separate and distinct parts: (1) SF-424 Application for Federal Assistance; (2) SF-424A Budget Information Form; (3) Budget Narrative; and (4) Project Narrative. It is each states responsibility to ensure that the funding amount requested is consistent across all parts and sub-parts of the application.

A. SF-424, Application for Federal Assistance

A state must complete the SF-424, Application for Federal Assistance OMB Control No. 4040-0004.

An SF-424 electronically submitted through grants.gov constitutes the official signed document. Item #11 must include the Catalog of Federal Domestic Assistance Number, (include HCTC Number here). Upon confirmation of an award, the individual signing the SF-424 on behalf of the applicant is considered the Authorized Representative of the applicant. As stated in block 21 of the SF-424 form, the signature of the Authorized Representative on the SF-424 certifies that the organization is in compliance with the Assurances and Certifications form SF-424B (available at http://apply07.grants.gov/applyforms/sample/SF424B-V1.1.pdf). You do not need to submit the SF-424B with the application.

B. Project Budget

A state must complete the SF-424A Budget Information Form OMB Control No. 4040-0006.

C. Budget Narrative

The budget narrative must provide a description of costs associated with each line item on the SF-424A, demonstrating how grant funds will be used. It must also include a description of leveraged resources provided (as applicable) to support grant activities.
Note that the SF-424, SF-424A, and budget narrative must include the entire Federal grant amount requested (not just for one year). Do not show leveraged resources on the SF-424 and SF-424A. A state should describe leveraged resources in the budget narrative. The requested Federal grant amount listed on the SF-424, SF-424A, and budget narrative must be the same. The funding amount included on the SF-424 will be considered the official funding amount requested if any inconsistencies are found.

D. Project Narrative
The Project Narrative must demonstrate the states capability to implement the grant project in accordance with the provisions of this announcement. It must provide a comprehensive framework and description of all aspects of the proposed project. It must be succinct, self-explanatory, and well-organized so that reviewers can understand the proposed project. Examples of activities for which funding may be requested include (but are not limited to): 1) outreach to notify eligible individuals regarding the availability of the advance credit option of HCTC; 2) process improvements to ensure eligible TAA and ATAA/RTAA recipients are correctly identified; 3) development/implementation of information technology systems related to the requirements this advisory; and 4) HCTC staff training.

E. Reporting
Each grant recipient is required to submit a ETA 9130, Quarterly Financial Status Report (OMB Control Number 1205-0461) until such time as all funds has been expended or the grant period has expired. On the final Financial Status Report, grant recipient must include any sub-award amounts so that applicable final indirect costs may be calculated. Workforce Innovation and Opportunity Act (WIOA) Dislocated Worker Program

**FEDERAL AGENCY:**

Employment Training Administration, Department of Labor

**AUTHORIZATION:**

Workforce Innovation and Opportunity Act (WIOA) of 2014

The Workforce Innovation and Opportunity Act (WIOA) was signed into law on July 22, 2014. It supersedes the Workforce Investment Act of 1998, and amends the Wagner-Peyser Act and the Rehabilitation Act of 1973. This regulation has been submitted to the Office of the Federal Register (OFR) for publication, and is currently pending publication in the Federal Register. Only the version published in the Federal Register is the official regulation., Public Law 113-128.

**OBJECTIVES:**

The purpose of the WIOA Dislocated Worker program is to help dislocated workers become reemployed. It provides them with job search assistance, career services, and/or training that builds their skills to meet labor market needs. Dislocated Worker Services are targeted for workers who are unemployed and have lost a job through no fault of their own, or who have exhausted their Unemployment Compensation. The program's success is measured by (add new measures).

**TYPES OF ASSISTANCE:**

Formula Grants

**USES AND USE RESTRICTIONS:**

WIOA specifies that most services for adult and dislocated workers will be provided through the American Job Center (AJC) Network, also known as the one-stop career center system. It authorizes that funds be used to provide career services, which are classified into two categories: basic and individualized services. While some job seekers may only need self-service or other basic career services such as labor exchange services, others may need more comprehensive services, such as individualized services, which include career planning, and developing an individual employment plan outlining needs and goals of the job seeker. Participants will also receive training services linked to job opportunities in their communities. To promote customer choice and involvement in career decisions, participants use an “Individual Training Account” (ITA) to select an appropriate training program from an eligible training provider list (ETPL). WIOA also authorizes the provision of supportive services (e.g., transportation and child care assistance) to enable an individual to participate in the program. Funds must be used in accordance with the statute and regulations.

**Applicant Eligibility:**

Under WIOA, the entities eligible to receive formula-based funding from the Department are the 50 states, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula and states, in turn, allocate funds to local workforce development boards (approximately 600), which are responsible for operating comprehensive American Job Centers (approximately 2,400 nationwide).

**Beneficiary Eligibility:**

Individuals eligible for assistance through the Act are workers who have lost their jobs, including those dislocated as a result of plant closings or mass layoffs, and are unlikely to return to their previous industry or occupation; formerly self-employed individuals; and displaced homemakers who depend on income of another family member, but are no longer supported by that income. Priority of Service is given to veterans and other covered persons.

**Credentialed/Documentation:**

Formula-funded programs are subject to an agreement between the Governor and Secretary and an approved State Plan. States sign a grant document agreeing to comply with the Act and regulations for the formula-allotted program. Cost principles apply to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

**Preapplication Coordination:**

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs.” An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

**Application Procedures:**

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Governor must submit a single WIOA Unified or Combined State Plan in accordance with planning guidance issued through the Federal Register. The planning guidance provides detailed instruction on what must be included in the State Plan, and provides a framework for collaboration across programs and integration of services, including the WIOA Title I programs and Wagner-Peyser Activities, as well as WIOA Titles II and IV programs housed with the Department of Education. The Combined State Plan includes the six “core” programs of the Unified Plan as well as other workforce development programs administered by the Department of Labor, the Department of Education, Health and Human Services, the Department of Agriculture, and the Department of Housing and Urban Development. States submit the Unified or Combined State Plan to the Federal Coordinator for Plan Review and Approval (currently Heather Fleck), Division of WIOA Adult Services and Workforce System, Office of Workforce Investment, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4209, Washington, DC 20210.

**Award Procedure:**

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

From 60 to 90 days. State plans will be reviewed in accordance with 20 CFR 661.220(e), which provides that the Secretary must approve all state plans within 90 days of their submission, unless the Secretary determines in writing that: (1) the state plan is inconsistent with the provisions of Title I of WIOA or the WIOA regulations, including 29 CFR Part 37; or (2) the portion of the state plan impacting the Wagner-Peyser Act plan does not satisfy the criteria for approval in section 8(d) of the Wagner-Peyser Act or the Wagner-Peyser Act regulations at 20 CFR Part 652.
